TM

3-IN-1
FOLDABLE WIRELESS
CHARGING STATION
WITH MIRROR

User's Manual
for 035-7459-6

Included:
3-in-1 Wireless Charging Station
USB-A to USB-C Cable
User Manual

* IMPORTANT

Please read before using this product

Detailed Instructions

Technical Specifications:

USB-C Input: 5 V/3 A, 9 V/2 A

Output #1 (Phone): 5 W, 7.5 W, 10 W, 15 W

Output #2 (AirPods): 5 W

Output #3 (Apple Watch): 2.5 W

Total Output: 15 W

Includes USB-A to USB-C power cable

Recommended:
Minimum 18 W USB Power Adaptor (sold separately)

Preparing to Charge:

*The 3-in-1 wireless charging station can charge iPhone®, AirPods® with wireless charging case, Apple Watch® and most wireless charging devices.

Charging:

Connect the wireless charging station to a USB power source with minimum output rating of 9 V/2 A (18 W) (not included) using the included USB-A to USB-C cable.

*Your devices will automatically begin to charge when placed on the wireless charger.

*For optimum charging, place your devices in the centre of the wireless charging areas.

Troubleshooting:

*No power: Make sure the charging station is connected to power.
Plug in the charging station.

*Device isn't charging (wireless): Make sure your device can be charged wirelessly and is placed in the centre of the charging area.

Precautions:

*Medical Implants: Please maintain a minimum of 20 cm safe distance between the wireless charging station (when powered ON) and any medical implants that can be affected by a magnetic field, such as pacemakers.

*Do not immerse in liquid.

*Do not place a magnet or any magnetically sensitive devices such as credit cards on the charging pad.

*Avoid placing metal or magnetic objects near the wireless charging station to prevent damage.

*Using a USB adaptor with a lower power output will not support charging multiple devices at the same time and will cause the charging speed to be reduced.

Please do not attempt to fix the product by yourself. You can contact our technical support representatives and they will assist you with any questions you might have.

This device contains licence-exempt transmitter/receiver that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS. Operation is subject to the following two conditions:

1) This device may not cause interference.

2) This device must accept any interference, including interference that may cause undesired operation of the device.

Made in China

Imported by Trileaf Distribution, Toronto, Canada M4S 2B8

FCC warning:

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

POSTE DE RECHARGE
SANS FIL PLIANT
AVEC MIROIR

Guide d'utilisation
pour 035-7459-6

Comprend :
Poste de recharge sans fil pliant 3 en 1
Câble USB-A vers USB-C
d'assemblage

* IMPORTANT

Veuillez lire ce guide avant d'utiliser ce produit

Instructions détaillées

Fiche technique :

Entrée USB-C : 5 V/3 A, 9 V/2 A

Sortie n° 1 (téléphone) : 5 W, 7.5 W, 10 W, 15 W

Sortie n° 2 (AirPods) : 5 W

Sortie n° 3 (Apple Watch) : 2,5 W

Sortie totale : 15 W

Inclut le câble d'alimentation USB-A vers USB-C

Recommandé :
Adaptateur d'alimentation USB minimum 18 W (vendu séparément)

Préparation en vue de charger :

* Le poste de recharge sans fil 3 en 1 peut recharger les téléphones iPhone®, les écouteurs AirPods® avec étui de recharge sans fil, les montres Apple Watch® et la plupart des appareils de recharge sans fil.

Chargement :

* Branchez le poste de recharge sans fil à une source d'alimentation USB avec une sortie minimale de 9 V/2 A (18 W)* (non incluse) à l'aide du câble USB-A vers USB-C inclus.

* Vos appareils commenceront automatiquement à charger lorsqu'ils sont placés sur le chargeur sans fil.

* Pour une charge optimale, placez vos appareils au centre des zones de recharge sans fil.

Dépannage :

* Aucune alimentation en courant : Assurez-vous que le poste de recharge est branché à l'alimentation. Branchez le poste de recharge.

* L'appareil ne se recharge pas (sans fil) : Assurez-vous que votre appareil peut être rechargé sans fil et qu'il est placé au centre de la zone de recharge.

Précautions :

* Implants médicaux : Veuillez maintenir une distance sécuritaire minimale de 20 cm entre le poste de recharge sans fil (lorsqu'il est allumé) et tout implant médical pouvant être affecté par un champ magnétique, comme les stimulateurs cardiaques.

* Ne plongez pas l'article dans du liquide.

* Ne placez pas d'aimant ni d'appareils sensibles magnétiquement tels que des cartes de crédit sur le tapis de recharge.

* Évitez de placer des objets métalliques ou magnétiques près du poste de recharge sans fil pour éviter tout dommage.

*Utiliser un adaptateur USB avec une puissance de sortie plus faible ne permet pas de charger plusieurs appareils en même temps et cela réduit la vitesse de recharge.

N'essayez pas de réparer le produit vous-même. Vous pouvez contacter nos représentants d'assistance technique et ils vous aideront avec toutes les questions que vous pourriez avoir.

Cet appareil contient des émetteurs/récepteurs exemptés de licence qui sont conformes aux RSS exemptés de licence d'Innovation, Sciences et Développement économique Canada. L'utilisation de ce dispositif est autorisée seulement aux conditions suivantes :

1) Cet appareil ne peut pas causer d'interférences.

2) Cet appareil doit accepter toute interférence, y compris les interférences qui peuvent causer un fonctionnement indésirable de l'appareil.
