(10) EUT Photo (Tapo C120)

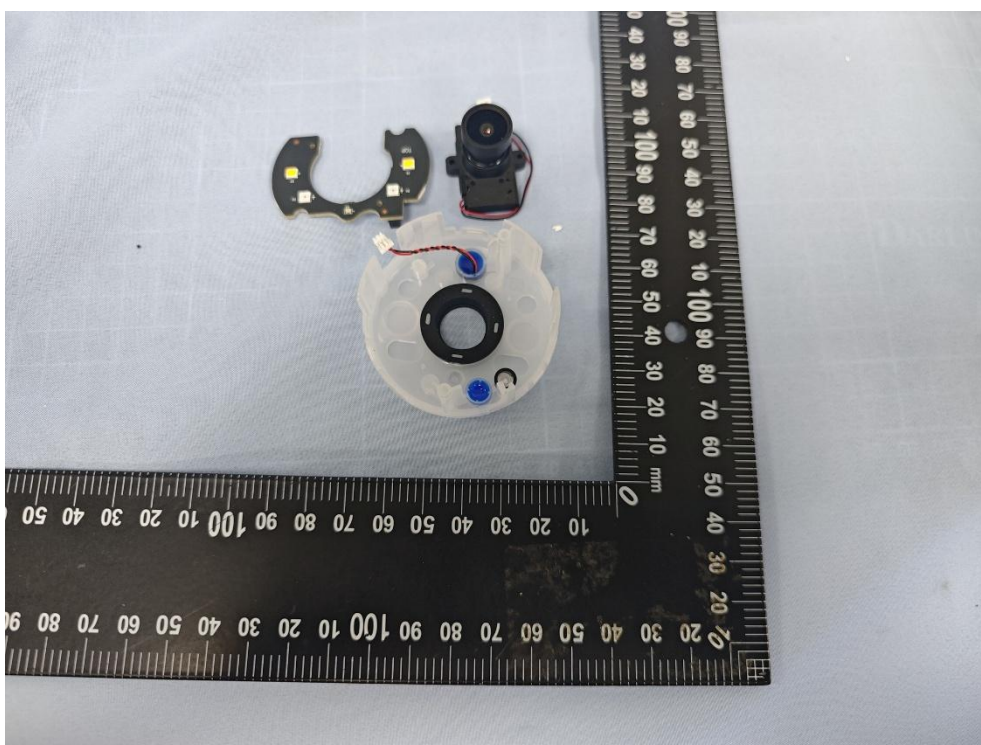

A photograph of a small, irregularly shaped electronic circuit board (PCB) with various components, including a large integrated circuit, capacitors, and a USB connector. The PCB is placed on a white surface next to a black ruler for scale. The ruler shows measurements in centimeters and millimeters.

This image shows a custom PCB for a Raspberry Pi 4. The central component is the Raspberry Pi 4 SoC, which is a quad-core ARM Cortex-A72 processor. It is surrounded by various components, including a large black RAM chip (likely LPDDR4), a yellow USB Type-C connector, and a yellow 4-pin header. The PCB is populated with numerous surface-mount components, including resistors, capacitors, and integrated circuits. The layout is dense and complex, typical of a custom PCB design.
