

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of a mobile phone, including the battery, camera, and various electronic components, laid out on a blue surface next to a black ruler for scale. The battery is labeled "LIFEPHONE" and "100% DIGITAL BATTERY". The ruler shows measurements in millimeters and centimeters.
Solder Board-Component View 1	 A photograph showing the solder board-component assembly, including the camera, various electronic components, and the solder board, laid out on a blue surface next to a black ruler for scale. The ruler shows measurements in millimeters and centimeters.

Solder Board-Component View 2	 A photograph of a green printed circuit board (PCB) component, likely a mobile phone's mainboard, resting on a blue textured surface. The component is irregularly shaped with various electronic components and solder joints visible. It is positioned next to a black L-shaped ruler for scale. The ruler has white markings in millimeters and centimeters. The component is oriented horizontally, with its longer side parallel to the ruler's horizontal edge.
Solder Board-Component View 3	 A photograph of the same green PCB component from a different angle, showing the underside or a different side. The component is placed on the same blue textured surface next to the same black L-shaped ruler. The ruler's markings are visible, providing a scale for the component's size. The component's shape and the distribution of components are clearly visible from this perspective.

Solder Board-Component View 4	 A photograph of a green printed circuit board (PCB) component, identified as 'View 4'. The component is rectangular with a complex shape, featuring several integrated circuits, resistors, and other electronic components. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component spanning approximately 40 mm in width and 20 mm in height.
Solder Board-Component View 5	 A photograph of the same green PCB component, identified as 'View 5'. This view shows a different side or angle of the component. It is placed on the same blue textured surface next to the same black ruler. The component's dimensions are consistent with the previous view, spanning approximately 40 mm in width and 20 mm in height.

Solder Board-Component View 6	 A photograph of a small green printed circuit board (PCB) component, likely a solder mask or a small antenna board, placed on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). The component is small, rectangular, and has several small components and solder points visible.
Antenna View	Div Ant. WIFI/BT/GPS Ant  GSM/WCDMA/LTE Main Ant. A photograph of the back of a smartphone, showing the internal components and the antenna layout. The phone is placed on a blue textured surface. Three red boxes with labels point to specific antenna locations: 'Div Ant.' (top left), 'WIFI/BT/GPS Ant' (top right), and 'GSM/WCDMA/LTE Main Ant.' (bottom center). The phone's internal components, including the battery, camera, and various connectors, are visible.
