

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup

Radiation Emission Test Setup (Below 30MHz)

Radiation Emission Test Setup (30MHz to1GHz)	A photograph of a radiation emission test chamber. The interior walls are covered with white, cross-shaped electromagnetic absorbers. A white, rectangular test fixture is positioned in the center of the chamber. The floor is dark, and there are yellow and blue safety markings. A metal ladder is visible on the right side.
Radiation Emission Test Setup (1GHz to18GHz)	A photograph of a radiation emission test chamber, similar to the one above but for a higher frequency range. The interior walls are covered with white, cross-shaped electromagnetic absorbers. A white, rectangular test fixture is positioned in the center of the chamber. The floor is dark, and there are yellow and blue safety markings. A metal ladder is visible on the right side. A large, white, circular antenna or probe is visible in the foreground on the right.
