

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	
Solder Board-Component View 1	

Solder Board-Component View 2	 A photograph of a small, irregularly shaped green printed circuit board (PCB) component. The component is populated with various electronic components, including a large black integrated circuit (IC) in the center, several smaller surface-mount components, and a multi-pin connector on the right side. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component spanning approximately 20 mm in width and 15 mm in height.
Solder Board-Component View 3	 A photograph of the same green PCB component from a different perspective. This view shows the underside of the component, revealing the solder joints and the components mounted on the reverse side. A large, rectangular silver-colored component, likely a heat spreader or a large IC, is prominent on the right side. The component is placed on the same blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component spanning approximately 60 mm in width and 20 mm in height.

Solder Board-Component View 4	 A photograph of a green printed circuit board (PCB) component, likely a mobile phone's main board, showing the solder side. The board is irregularly shaped with various components and solder joints. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the vertical scale on the left ranging from 0 to 70 mm and the horizontal scale at the bottom ranging from 0 to 100 mm.
Solder Board-Component View 5	 A photograph of the same green PCB component from a different angle, showing the component side. Key components visible include a large black integrated circuit (IC) labeled 'UNISOC' and 'MT6735', and another IC labeled 'Realtek'. The board is placed on the same blue textured surface next to the same black ruler. The vertical scale on the left shows measurements from 0 to 60 mm, and the horizontal scale at the bottom shows measurements from 0 to 100 mm.

Solder Board-Component View 6	A photograph of a green printed circuit board (PCB) with various electronic components soldered onto it. The board is irregularly shaped with several cutouts. A black ruler with white markings is placed horizontally below the board, showing measurements in millimeters. The board is resting on a blue textured surface.
Antenna View	GSM 1900/WCDMA B2/B4 /LTE B2/B4/B7/B38/B40/B66 WIFI/BT/GPS Ant A photograph of the back of a smartphone with its antenna components visible. The phone is lying on a blue textured surface. Three red rectangular boxes highlight specific antenna areas: one at the top left, one at the top right, and one at the bottom center. Red lines connect these boxes to external labels. The phone's screen is a solid blue color. GSM850/WCDMA B5 /LTE B5/B12/B13/B17 Ant.
