

Step 1. App Download and Registration

A screenshot of the 'Register account' screen in a mobile application. The screen has a light blue background. At the top, there is a header bar with a back arrow on the left, the text 'Register account' in the center, and a speaker icon on the right. Below the header, there is a text input field containing 'BritishIndianOceanTerritory' with a right-pointing chevron icon to its right. Below this is another text input field with the placeholder text 'Please enter your email address'. Underneath the email field is a radio button followed by the text 'I have read and agree' and two links: '《 User Agreement 》' and 'And 《 Privacy Policy 》'. At the bottom of the form is a large teal button with the text 'Get verification code'. Below the button is a link that says 'I don't have an email'.

- 1 Search for "O-KAM Pro" in App Store or Google Play, or scan the QR code to download the App.
- 2 Select "Register now", select your corresponding region, and enter your email address to complete the registration.

Step 2. Add Devices

Confirm that the device enters the state of waiting for network configuration

Check Whether the device indicator is flashing, or the prompt tone of "Please use the App for Wi-Fi configuration" is heard.

Otherwise please reset the device first [How to reset??](#)

Plug-in device

Please power on and wait for the device's prompt tone

1 Open the App, log in the account, and click "+", scan the QR code on the camera ;

2 Enter the correct WiFi password;

3 Use the camera to scan the QR code generated by the mobile phone and keep it at about 15-30cm;

4 Bind now.

Step 3. Device sharing

1 Click “System settings”
-Share;

2 QR code sharing.

Warning:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

NOTE: This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter

RF Exposure Statement

To maintain compliance with FCC's RF Exposure guidelines, this equipment should be installed and operated with minimum distance of 20cm the radiator your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.
