This image shows a Raspberry Pi 3 Model B PCB. Key components visible include the Broadcom BCM2837 SoC, 1GB LPDDR2 RAM, and the USB Type-C port. The board is populated with various passive components like capacitors and resistors. A ruler on the left indicates the board's dimensions, which are approximately 85mm by 56mm.

A close-up photograph of a blue printed circuit board (PCB) with various electronic components and labels. A red rectangular box highlights a gold-colored, meandered antenna structure. A red arrow points from a white box labeled "BLE Antenna" to this structure. Other labels on the PCB include "HDMI", "TX RX GND", "BT M GND NC", and "BT". There are several gold-plated pins and a small gold-colored component near the antenna. The background is a blue textured surface.
