

MINI EXCAVATOR INSTRUCTIONS

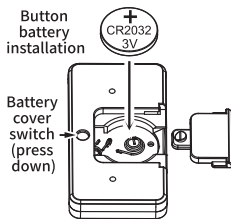

Please read the instructions carefully before use and keep them in a safe place for future use.

1. Warning:

- This product is suitable for ages 6 and up.
- The car battery is not replaceable, but it is rechargeable.
- The remote control uses a replaceable CR2032 button battery. Batteries should only be replaced under adult supervision; swallowing is dangerous.
- Adult supervision is required during charging to prevent accidents, Always unplug the charger. Even if not used for extended periods, it requires charging and maintenance every two weeks.
- To prevent damage, avoid contact with water and chemicals. Do not use on soft surfaces such as blankets or sand, as this may affect speed and lifespan.

Button battery installation

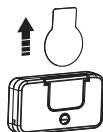

Open the remote control's battery cover, insert a 3V CR2032 button battery with the negative terminal facing down into the battery compartment, and replace the cover.

Note: When the remote control indicator light brightness decreases and the remote control distance becomes closer, please replace the remote control battery CR2032. Use a tool to press the battery cover switch to open the battery compartment, replace the battery with the same model and direction, and close the battery cover.
