

Declaration

Product Name: PROTOS
FCC ID: 2BHG9-C0CA-FPL27
Model(s): C0CA-FPL27

We declartion, Since the aircraft's 2.4GHz WiFi module is used in high-altitude flight, users do not need to use WiFi communication during operation. Control is only achieved through the module's 2.4GHz receiver. Therefore, this wireless function is disabled by modifying the relevant control port via factory firmware. Users do not need to use this function.
