

NoQ Paging System

(NoQ Transmitter, NoQ Pager)

User Technical Manual

1 FUNCTION

1.1 Name Description

- ① NoQ Pager FND : Pager Number
- ② NoQ Transmitter Power : USB C Type (+5V, Only Power, No Data communication)
- ③ NoQ Pager Charging Port 10 Slot : +5V
- ④ NoQ Transmitter FND
- ⑤ NoQ Transmitter Key Pad

1.2 Initial Display

1.3 Standby Display

※ The standby display on the FND blinks once per second.

1.4 Setup Menu

No.	SETUP MODE	SETUP PASSWORD			Remark
		2580	2386	9838	
0	V-XX	0			Version
1	Alt	0			Alert

● Setup Menu Details

Key Details - Menu Up: “▲” / Menu Down: “▼” / Select: “▲” / Enter: “SEND” / Cancel: “▼” (when pressed for 3 seconds) / Number: 0 ~ 9

NO.	Setup Menu	Details	Remark
0	U-01	U-01 SEnd ① Press 'Send' to read the version of pager firmware.	
1	ALT	U_oF 01 02 03 04 05 on F_oF 01 02 03 04 05 on b_oF 01 02 03 04 05 on ① Time Setting of VIBE (V_XX) - Use the ▲ button to select the option. - Press 'SEND' to save the settings. ② Time Setting of FLASH(LED) (F_XX) - Use the ▲ button to select the option. - Press 'SEND' to save the settings. ③ Time Setting of BEEP (b_XX) - Use the ▲ button to select the option. - Press 'SEND' to save the settings.	[Options] oF - OFF 01 – 8 secs 02 – 15 secs 03 – 30 secs 04 – 60 secs 05 – 120 secs on – Continuous
2	oor	on off ① Use the ▲ button to toggle Out of Range mode ON/OFF. ② Press 'SEND' to save the settings.	

3	TEST	on 0000~9999 SEND	① In Test mode, the device counts from 0~9 and sends data once every 10 seconds. ② Use ▼ button to cancel Test Mode.
4	Prog	---- 1-- 1n9	The setting value is displayed on the FND of the pager. ① Use the number keys to set the pager number (001~999). ② Press 'SEND' to save the setting. - To change the setting values, the pagers should be connected to Star TX.
5	SLP	on SEND	① Press 'SEND' to instruct pagers to enter Sleep mode.
6	oPt	on off on 10b 20b 30b 40b 50b	On : 10Key Off : Normal * 10Key 10b : 1-10 20b : 11-20 30b : 21-30 40b : 31-40 50b : 41-50 ① Use ▲ button to choose ON/OFF. ② Press 'SEND' > Press ON to initiate the mode to select numbering range. > Press OFF to save the selected setting. ③ Use the ▲ button to select from the options 10b, 20b, 30b, 40b, or 50b. ④ Press 'SEND' to save the setting.

7	base	0001 2_ _ _	① Use the number keys to set the BID of TX. ② Press 'SEND' to save the setting.	
8	bPS	500 1200	① Use ▲ button to set the baud rate from 500 or 1200. ② Press 'SEND' to save the setting.	
9	FrEQ		① Use ▲ button to set the frequency of Star TX. (4339200 or 4479750) ② Press 'SEND' to save the setting.	
10	ALL	St 1 n9	① Press 'SEND' to change the Base ID / Baud Rate / Frequency of pagers. - To change the settings, the pagers should be connected to Star TX. - The pagers will have the same Base ID/Baud Rate/Frequency with Star TX.	The setting value is displayed on the FND of the pager
11	rEAd	St 1 n9	① Press 'SEND' to read the Base ID / Baud Rate / Frequency / Version of pagers. - To read the setting values, the pagers should be connected to Star TX.	The setting value is displayed on the FND of the pager
12	POW	00 16 20_ _	① Use the number keys to select RF level. (1~120) ② Press 'SEND' to save the setting.	Maximum +20.0dBm

13		① Use ▲ button to set the Mode RF OFF / Unmodulated / modulation ② Use ▼ button to cancel Test Mode	rFoF : RF Off rF-1 : Unmodulated rF-2 : Modulation
14		① Use ▲ button to set the Deviation. 2.0 ~ 9.0 K ② Press 'SEND' to save the setting. ③ Use ▼ button to cancel.	

1.7 Others

1.7.1 Call

1.7.1.1 Normal Mode

- ① To call a pager, press the pager number: Pager numbers range from 001 to 999.
- ② Press SEND to call the pager.
- * To Cancel the mode, press the ▼ button.

1.7.1.2 10Key Mode

- ① Use the number keys 1~10 to directly call pagers.
- The available range of numbers may vary based on the key options (refer to oPt on Page 6): 1-10, 11-20, 21-30, 31-40, 41-50.

FCC Interference Statement

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

FCC Labeling Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF EXPOSURE STATEMENT

Your Pager Transmitter contains a radio frequency transmitter. When the button is pushed the transmitter sends out RF signals.

CAUTION: To comply with FCC RF exposure compliance requirements, a separation distance of at least 8 inches (20 cm) must be maintained between the antenna of this transmitter and all persons, during normal operation. The antenna used for this transmitter must not be collocated or operating in conjunction with any other antenna of transmitter. Unauthorized antennas, modifications, or attachments could damage the transceiver and may violate FCC regulations.

FCC Caution

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Industry Canada Statement

This device complies with RSS-119 of the Industry Canada Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Ce dispositif est conforme à la norme CNR-119 d'Industrie Canada applicable aux appareils radio exempts de licence. Son fonctionnement est sujet aux deux conditions suivantes: (1) le dispositif ne doit pas produire de brouillage préjudiciable, et (2) ce dispositif doit accepter tout brouillage reçu, y compris un brouillage susceptible de provoquer un fonctionnement indésirable.

Industry Canada Radiation Exposure Statement

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20 cm between the radiator & your body.

Déclaration d'exposition aux radiations

Cet équipement est conforme aux limites d'exposition aux rayonnements IC établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20 cm de distance entre la source de rayonnement et votre corps.
