Sunrise Alarm Clock with Sound Machine

Get Started

Plugging in for power

Plug in the adapter into a standard household outlet to get the sunrise alarm clock working.
Always keep your machine plugging in.

Download the app

Download Tuya Smart app on your phone from the Apple App store or Google Play store.

1

Connect your R7APP

Please make sure your phone:

- Connected to a secure 2.4GHz Wi-Fi network.
- Enables Location.
- Turns on Bluetooth.

Hold for 2s. When you hear a prompt tone, the device enters pairing mode. **Once paired successfully, the blue indicator will stop flashing.**

2

Connect your R7APP

Follow the steps in the Tuya Smart app to connect your R7_Sunrise Alarm Clock.
(R7APP can only be connected to 2.4GHz Wi-Fi.)

Open the Tuya Smart app, tap the "+" and select "Add Device."

Tap the options shown on the screen.

Enter your Wi-Fi name and password, then tap "Next" to complete the connection.

3

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
