

FCC Labeling is placed in two locations: User Manual that is shipped with every Lumia system, and in the mobile app. This complies with the [general labeling](#) and the [E-labeling guidance](#).

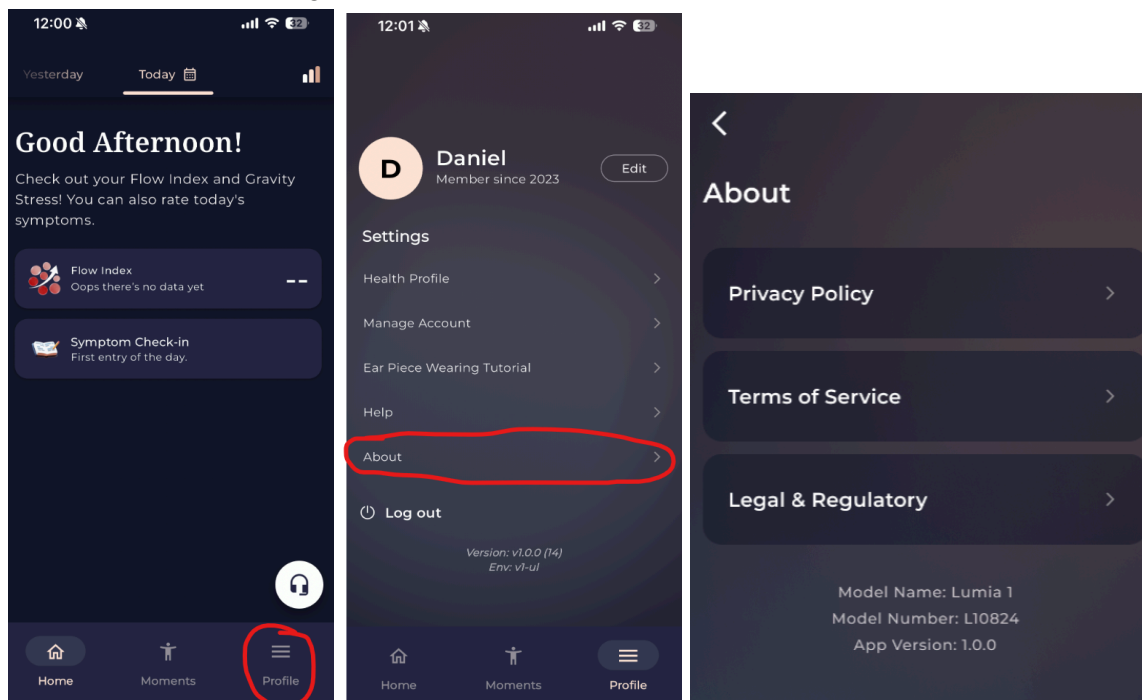

1) User Manual

- a) FCC Labeling and required disclosure language is inside of the printed User Manual that is shipped with each Lumia system.

2) Mobile App

- a) Labeling is accessible within 3 clicks of the Home Screen of the Mobile app. Labeling will persist indefinitely inside of the app.
- b) As per KDB 784748 D02, "Products that are required to work in conjunction with another product that has a display, such as a smartphone..." qualify for e-labeling. A smartphone is required for normal Lumia operation.

Legal & Regulatory

Not a Medical Device. Lumia™ is not a medical device, and has not been evaluated by the Food and Drug Administration. This device is not intended to diagnose, treat, cure, or prevent any disease.

FC

Earpiece FCC ID: 2BHMV-LI0824

Light Station contains FCC ID: 2AC7Z-ESPS3WROOM1

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna. —

• Increase the separation between the equipment and receiver.

• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

• Consult the dealer or an experienced radio/TV technician for help

Disposal and Recycling Information. This product should not be disposed of with household waste. Please dispose of this product at designated electronic waste collection points for recycling. For more information on where to recycle this product, please contact your local waste disposal authority.

California Proposition 65. WARNING: This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.
