

Lumia Health, Inc.

119 Braintree Street, Suite 601
Allston, MA 02134 USA

Date: September 1, 2026

Attention: Application Examiner

Re: Request for confidentiality

Applicant: Lumia Health, Inc.

FCC ID: 2BHMV-L20926

To whom it may concern,

Request is hereby submitted by Lumia Health, Inc. to withhold permanently from public review certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules.

In particular, the following sections of the application are to be kept permanently confidential:

- Schematics
- Block Diagrams
- Operational Description
- Internal photos

Rationale for request for confidentiality:

Lumia Health, Inc. has invested considerable time and materials in research and development to produce the referenced product. Disclosure of the permanently confidential portions of this application to competitors would not only give them significant competitive advantages in developing similar products, but would also disclose successful implementation of unpublished, leading edge technology developed by us.

One side of the main circuit board and internal components are not normally accessible to users. The circuit board is affixed to the housing with epoxy, and the exposed external portion of the main circuit board is further covered with an opaque adhesive. The circuit board is damaged if users attempt to gain access to the internal components from the plastic housing. The circuit board is made to be not accessible to users.

If you have questions or need further information, please contact the undersigned.

Sincerely,

A handwritten signature in blue ink, appearing to read "JPickens", is written over a horizontal line.
