

Users Manual Exhibit

Electronic User Instructions Provided via Companion Mobile Application

Cover Note to Intertek

This exhibit is submitted in place of a printed user manual for the above-referenced certification. The applicant does not produce or distribute a printed instruction manual. Instead, required user information is delivered electronically through the companion mobile application, at About > Legal & Regulatory.

This is consistent with FCC guidance (KDB 784748 D02 “Electronic Labeling Guidance”), which permits the information required under Sections 15.21 and 15.105 to be provided in electronic form, including through software, provided the user can reasonably be expected to access it in that form.

This filing covers the next hardware version of the product, which includes the Ear Piece only. The prior version, shown in the supporting screenshots in Exhibit B, also included a Light Station accessory that is not part of this submission. The transcribed text in Exhibit A below reflects the next version and Ear Piece only; Light Station references have been removed accordingly.

Exhibit A — Transcribed In-App Legal & Regulatory Text (Next Version, Ear Piece Only)

Not a Medical Device

Lumia™ is not a medical device, and has not been evaluated by the Food and Drug Administration. This device is not intended to diagnose, treat, cure, or prevent any disease.

FCC Identification

Ear Piece FCC ID: 2BHMV-L20926

You can view this device's FCC ID at any time in the app under About > Legal & Regulatory.

FCC Part 15 Statement (Section 15.19)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Radiofrequency (RF) Radiation Exposure Information

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This device has been demonstrated to qualify for a SAR test exemption in accordance with KDB 447498 guidelines for portable deployment conditions.

Modifications Warning (Section 15.21)

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Class B Digital Device Statement (Section 15.105)

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful

interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Disposal and Recycling Information

This product should not be disposed of with household waste. Please dispose of this product at designated electronic waste collection points for recycling. For more information on where to recycle this product, please contact your local waste disposal authority.

California Proposition 65

WARNING: This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.
