

IMPORTANT SAFETY INFORMATION

When using electrical products, basic precautions should always be practiced including the following:

1. READ AND FOLLOW ALL SAFETY INSTRUCTIONS.

2. This device is rated for indoor and outdoor use.
3. All safety and operating instructions in this manual must be followed before using this product.
4. Follow all the safe guards stated in the manual, in addition to normal safety precautions in working with electrical devices. Always follow basic safety precautions to reduce the risk of fire, electric shock and personal injury.
5. Ground Fault Circuit interrupter (GFCI) protection is to be provided on the circuit(s) or for the wet location portable luminaire. Receptacles are available having built-in GFCI protection and are able to be used for this measure of safety.
6. Use only with an extension cord for outdoor use, such as an extension cord of cord type SEW, SEOW, SEOOW, SOW, SOOW, STW, STOW, STOOW, SJEW, SJEOW, SJEOOW, SJW, SJOW, SJOOW, SJTW, SJTOW or SJTOOW.
7. To disconnect, turn off the unit, then remove the plug from the outlet.
8. Do not turn off by pulling on the cord.
9. To reduce the risk of fire, keep away from combustible materials while in operation.
10. To reduce the risk of injury, close supervision is necessary when this product is used near children.
11. Suitable for wet locations.
12. Must not be connected to a dimmer.
13. Operating Temperature:
14. This product is not user-serviceable. Do not attempt to open the product enclosure for any reason.
15. Unplug from outlet before installing this product.

MAINTENANCE AND CARE

Regularly clean the lens with a non-abrasive cleaning cloth. The same care should be provided for the bracket.

IMPORTANT, RETAIN FOR FUTURE REFERENCE: READ CAREFULLY

WARNING:

Use only three-wire outdoor extension cords that Have three-prong grounding plugs and grounding Receptacles that accept the appliance's plug. Do not use and extension cord near or in areas Where water may accumulate. Keep away from Pools or spas. Keep plugs dry.

WARNING: RISK OF SHOCK.

House electronic current can cause painful shock or series injury unless handle properly.

WARNING: When using outdoor use portable luminaires, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and personal injury.

WARNING:

Eye damage caused by high light intensity. Never look directly into the light source.

FCC STATEMENT

This device complies part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to

radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna. Increase the separation between

the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The antenna is permanently attached, can't be replaced.

This equipment complies with FCC's RF radiation exposure limits set forth for an uncontrolled environment. The antenna(s) used for this transmitter

must be installed and operated to provide a separation distance of at least 20 cm from all persons and must not be collocated or operating in conjunction with any other antenna or transmitter. Installers must ensure that 20 cm separation distance will be maintained between the device and users.

Model: FL30RGBW, 120VAC, 0.39A 30W 60Hz
