

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS**EUT Housing and
Board View 1****EUT Housing and
Board View 2**

Solder Board-Component View 1	 A photograph of a small electronic component, likely a sensor or microcontroller, mounted on a blue PCB. The component is rectangular with two pins extending from one side. Two red and black wires are connected to the pins. The component is placed on a blue surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10).
Solder Board-Component View 2	 A photograph of the same electronic component from a different angle. The component is rectangular with two pins extending from one side. Two red and black wires are connected to the pins. The component is placed on a blue surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10).

Solder Board-Component View 3	 A photograph of a blue printed circuit board (PCB) component, labeled 'E06_MAIN_RV2.7', positioned next to a black metric ruler. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The PCB is rectangular and populated with various electronic components, including integrated circuits, resistors, and capacitors. The component is placed on a blue fabric background.
Solder Board-Component View 4	 A photograph of the same blue PCB component, labeled 'E06_MAIN_RV2.7', from a different perspective. This view shows the underside of the board, which features a grid of 12 circular solder pads arranged in 3 rows and 4 columns. The component is placed next to the same black metric ruler on a blue fabric background.
