Columbia, MD 21046

To whom it may concern:

This letter is to inform you that we, QRC Technologies, are requesting Change in FCC ID for the new certification(s), OLD FCC ID: Z4T-LORA-E5. New FCC ID: 2BHXO-Q1700L. The device to be certified is identical in design and construction to the originally approved product(s).

In order to ensure continued compliance of the product, we have employed the following:

The product is still manufactured by the same company (Seeed Studio) using the same design specifications as the original. Our only change is to enclose the original LoRa radio (which is a PCB) within an enclosure to permit its use as a hand held device. The enclosure reduce the radiated emissions to a safe level for the device to be used as a handheld radio. The new configuration passed safety and SAR testing to FCC standards.

Sincerely,

A handwritten signature in black ink that reads 'James Matthew Cobey'.

James Matthew Cobey
Director of Quality
QRC Technologies, A Parsons Company
