

What's in the Box?

1

2

3

1 - TRUTH45 Speaker
2 - USB-A to USB-C Charging Cable
3 - Quick Start Guide

Remove your speaker from its packaging

Remove your speaker by gripping each side of its waist, putting pressure down on the black protective packaging, and pulling the speaker out

Your speaker's electronic components are in its brown base, and your speaker's arms could break if you grip and pull them. That's why we recommend removing the speaker by the waist.

Get to know your speaker

1 - Power
2 - Volume Down
3 - Volume Up
4 - USB-C Charging Port

Safety and Use

1. Store and use equipment in a room temperature environment. Do not place this equipment in an environment with an ambient temperature higher than 70°C or lower than -20°C for an extended period of time.
2. Do not charge or use the equipment in rain or high humidity environments.
3. Do not charge or use this equipment in or around water.
4. Keep this equipment away from open flames and heat sources.
5. Do not disassemble, repair and / or transform the equipment.
6. This product has a built-in lithium battery. Do not throw it away. Properly dispose of the equipment at a recycling point equipped to accommodate lithium batteries or at a household hazardous waste collection point.
Note: if you violate the above warnings and use the equipment improperly, you bear all responsibility for any personal and property damage. The company will bear no legal responsibility.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) the device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help

FCC Warning

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. To maintain compliance with FCC's RF exposure guidelines, the distance must be at least 20 cm between the radiator and your body, and fully supported by the operating and installation.
