

[illegible]

2) Turn off functions such as "3" sound effect, "1" light effect, "F" fragrance Box, and "W" Schumann wave

3) Set working intensity and working time for each function

4) Customize Comfortable Routine:

1) Audio "Track" function only supports 16 settings.
(This version of the software only supports setting tracks to audio tracks stored in the built-in SD card of this product.)

2) The built-in sound effect tracks are stored in the built-in SD card.
3) The built-in sound effect tracks are stored in the built-in SD card.
4) The built-in sound effect tracks are stored in the built-in SD card.

3) "Loop/Auto" key function

Press the "Loop/Auto" key to select one of the corresponding function: Loop, Auto, Compose.

1) "Loop" function: The "Loop" function is used to loop the audio track. When the audio track is played, it will loop back to the beginning of the track and play again. This function is useful for creating a continuous sound effect.

2) "Auto" function: The "Auto" function is used to automatically play the audio track. When the audio track is played, it will play automatically without the need for manual intervention.

3) "Compose" function: The "Compose" function is used to create a custom sound effect. This function allows you to combine different audio tracks to create a unique sound effect.

4) Customization Comfortable Routine Function Execution

This customization function provides users with the ability to customize their routine. It allows users to select different audio tracks and functions to create a personalized routine.

1) When playing the track pointed to by the shortcut key, long press for 3 seconds to cancel the original track pointed to by the shortcut key.

2) When playing a track that is not pointed to by the shortcut key, long press for 3 seconds to cancel the original track pointed to by the shortcut key.

3) When playing a track that is not pointed to by the shortcut key, long press for 3 seconds to cancel the original track pointed to by the shortcut key.

5) Built-in tracks

1) The built-in tracks from the factory are demonstration sound effects tracks, and users can replace them by connecting the machine to the computer, adjusting that preferences (Operations will be PC connection to update the track stored in the built-in SD card).

2) The built-in sound effect tracks are stored in the built-in SD card, and the product will automatically connect to the track pointed to by the shortcut key.

3) The built-in sound effect tracks are stored in the built-in SD card, and the product will automatically connect to the track pointed to by the shortcut key.
