3-IN-1 WIRELESS CHARGER

User Manual

Product Introduction

Thank you for purchasing our product 3-IN-1 Wireless Charger. It uses high-end fast wireless charging chip and has a luxurious and compact design. It is compatible with any mobile phone that meets the Qi standard. Perfectly compatible with iPhone 12 and above, other mobile phones with wireless charging function need to be used with a magnetic phone case, effectively saving more time and improving your charging experience.

Product Outline

Applicable Devices

1. Devices with built-in quick charge/normal charge wireless receiver.
2. Devices with outer-face wireless charging receiver.
3. Devices with wireless charging receiver in its protection case .

Note: All devices must be Qi standard.

Instructions

1. The wireless charger is connected to the power adapter through the interface and AC power supply. After the power is turned on, the red light turns on and enters standby mode.
2. When the phone, watch or TWS is charging, the corresponding indicator light is blue. When fully charged, the indicator light is always on. (Frequent flashing of red and blue indicators indicates foreign object detection) (Note:If the watch has no electricity , charging will be slower, it is recommended that the watch is close to 10% please charge, when there is to have patience!)
3. Touch switch for night light. Flip the switch to turn on the light. Press the switch twice to switch the light to medium brightness, press the switch three times to switch the light to low brightness, and press the switch four times to turn off the light. Long press the switch and the light will gradually brighten or dim.

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.
Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
