Helmet Bluetooth Headset

Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction

Installation steps

- Fixed and installed by means of clips

Slightly open the metal clip and insert it directly into the helmet's inner edge.

Peel back the inner padding at the ear position of the helmet where there is space, and attach the

Properly align and attach the speaker to the main surface (start with the left speaker).

Position the touch band and padding in the appropriate location on the helmet, and adjust the microphone height (ensure proper adhesion and comfort).

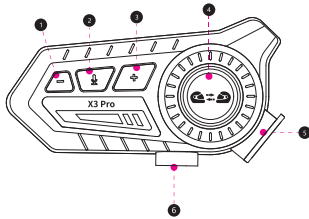

Insert the plug into the headphone jack.

Installation complete.

X3 PRO User Manual

EN

- Power operation**
Power On: Press and hold the [Power button] for 3 seconds until you hear "Power On" and the red and blue lights flash.
Power Off: Press and hold the [Power button] for 3 seconds until you hear "Power Off" and the red lights will turn on for 1 second before turning off.
- wireless/bl pairing mode**
When powered on, the red and blue lights flash. Turn on Bluetooth on your phone and search for X3PRO. After successful pairing, a voice prompt will say: "Bluetooth Connected."
- Switch between Chinese and English**
Power on, if not connected to Bluetooth, double-click the [Power button] to switch between Chinese and English.
- Call operation**
Answer a call: Press the [Power button] to answer, or (in auto-answer mode) wait for the call to be automatically answered.
End a call: During a call, press the [Power button] to hang up.
- Music playback**
Play/Pause: Single-click the [Power button]
Previous track: Press [3] / Next track: Press [2], Volume Up: Long Press [3] / Volume Down: Long Press [2]
- Music Sharing**
After connecting the two devices to their respective phones' Bluetooth, double-click the volume [3] button to enter music sharing mode and share music. Double-click the volume [3] button again to turn off music sharing.
- Ambient Lighting On/Off**
When powered on, click [4] to turn on or off the RGB ambient lighting.
- Auto Answer**
When powered on and not connected to Bluetooth, double-click [3] to switch between automatic and manual answering.
- Voice Assistant**
When connected to Bluetooth, double-click [2] to activate the music assistant. After a "ding" sound, you can use voice commands.
- Intercom On/Off**
Press and hold [4] to activate intercom. The green light flashes quickly.
- Inter-Brand Two-Person Intercom**
Press and hold [4] on both devices to enter intercom mode. The green indicator light flashes quickly, and a voice message announces "Inter-brand Intercom Enabled." After successful pairing, a voice message announces "Intercom Connected." The two devices can now talk to each other. (When a call comes in, it automatically switches to answering the call. After hanging up, intercom resumes.)
- Intercom Reconnection**
After turning on the paired devices, long-press the [4] button to enter intercom mode. The two devices will automatically connect to each other.
- Restore Factory Settings**
Power on the device. While connected to Bluetooth, simultaneously press and hold the [3] and [2] buttons for 5 seconds until the indicator light flashes, then turn off the device.
- Charging Status**
Charging: The indicator light will illuminate while charging. It will turn off/charge color when fully charged.
Low Battery: A "Low battery" alert will sound every 5 minutes when the device is turned on.

The charger must provide power between the minimum [2.5V] and maximum [5V] required by the wireless device to achieve maximum charging speed.
