Charging Time: 1-2 hours
Standby Time: 300 hours
Charging Port: Type-C
Charging Voltage: USB 5V 1A

Two-person walkie-talkie from the same brand:

After powering on both headsets, press and hold button [4] to enter intercom mode. The green indicator light will flash rapidly, accompanied by a voice prompt. Once pairing is successful, a message will sound saying "Intercom connected," allowing two people to talk to each other.

Cross-brand 2-person intercom:

Power on the X5 Pro headset and press and hold button [4] to enter intercom mode. A green indicator light will flash rapidly, accompanied by a voice prompt. Simultaneously, power on another headset from a different brand and enter pairing mode. The X5 Pro will automatically connect to the other headset. Once both headsets are successfully paired, a "Intercom connected" message will sound, allowing two people to make cross-brand intercom calls.

Multi-person half-duplex intercom:

Power on multiple X5 Pro headsets and double-click button [4]. A prompt tone will play, and all headsets will enter "Multi-person Intercom Mode." If one person wants to make a call, double-click button [3] to initiate a multi-person intercom call. Double-clicking button [3] again will exit the multi-person intercom call. (Note: When one headset is engaged in an intercom call, other headsets can only receive audio. Other headsets can only enter "Intercom Call Mode" after the first headset exits the intercom call.)
(Note: Before activating "Multi-person Intercom Mode," please disconnect the headsets from the phone's Bluetooth connection.)

Music sharing:

After connecting earbuds A and B to phones A and B via Bluetooth respectively, double-click the volume up button on both earbuds to enable music sharing. At this point, earbud A can play music, and earbud B can share the music. Double-click the volume up button again to disable music sharing.

FM mode:

After turning on the headphones, triple-click [3] to start the FM radio mode; double-click to perform automatic station search (wait 1 minute). Single-click [1]/[2] to switch channels; triple-click [3] again to turn off the FM radio mode.

The charger output power must be between the minimum power (2.5W) and the maximum power (5W) required by the wireless device to achieve the maximum charging speed.
