9. FAQs

Q: What kind of charger should be use for the speaker?
A: All common USB 5V chargers can be used, while we suggest 5V/1A or above 1A.

Q: What if there is noise or interupted audio during playing?
A: The speaker can be normally used within 10m under no obstruction environment.
If it is beyond 10m or with obstruction, there might be noise or interupted audio.

Q: Why does the speaker power of automatically after power on without any operation?
A: When there is no bluetooth pairing in 10 minutes, the speaker will shut down automatically to reduce power consumption.

Q: Why does the speaker not connect to a previously paired device?
A: First, remove the speaker's paired name from the device's Bluetooth list and then restart pairing.

Q: The speaker cannot be started up in a normal situation?
A: Please connect the speaker to a charger and retry after a few minutes or try to long press power button 10-20s to reset.

Important safety instructions:
1. Do not disassemble or repair this speaker personally, otherwise it may cause product damage or personal injury.
2. Do not use it in dusty, humid, dry, and high-temperature environments.
3. Do not place this product near a heat source, or a place with direct sunlight, a lot of dust, or mechanical vibration.
4. In order to reduce the risk of fire, please do not cover this product with newspapers, tablecloths, curtains etc., during use.
5. If the product has a waterproof feature, please do not exceed the nominal parameter range when using it.
6. When the product is damaged, such as the charging cord or plug is damaged, liquid enters, objects fall onto the device, unable to operate normally, or falls, it must be repaired.
7. When the product is fully charged, disconnect it from the charger.
8. The maximum ambient temperature should not exceed 40°C.

GEARit LIMITED WARRANTY

Warranty Coverage:
We stand behind our products with confidence, offering warranties designed to give you peace of mind and a worry-free experience. Our commitment covers most GEARit products with specific warranty periods based on product type such as cables, cases, wall chargers, and more. Either way, you're protected from defects in materials and workmanship.
• Speakers (Bluetooth Products): 24 Months
30-Day Money-Back Guarantee:
You may return undamaged products within 30 days for a full refund. Products must include all accessories and original packaging. Shipping costs for non-quality-related returns are the responsibility of the buyer.
Replacement Warranty:
If a defect arises within the warranty period, GEARit will repair, replace, or issue a credit for the product. Repaired or replacement products are covered for 90 days or the remainder of the original warranty, whichever is longer.

FCC Compliance Statement
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio/TV technician for help.
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference.
(2) This device must accept any interference received, including interference that may cause undesired operation.
