

Operating Instructions:

1. This item comes with a security travel lock feature.
2. To activate vibration, press and hold the top button for 3 seconds.
3. Press the top button repeatedly until the desired speed is reached.
4. To turn off vibration at any time, repeat step 2.
5. To activate thrusting action, press and hold the bottom button for 3 seconds.
6. Press the bottom button repeatedly until the desired speed is reached.
7. To turn off thrusting action at any time, repeat step 5.
8. This item comes with a memory feature; item will resume on last speed used.

To use with remote:

1. Press and hold the top button on the product for 3 seconds to activate; a flashing LED light will indicate the product is activated.
2. Using the remote, press and hold the top button to activate vibration.
3. Press the top button on the remote repeatedly until the desired speed is reached.
4. To turn off vibrations, press and hold the top button on the remote for 3 seconds.
5. Press and hold the bottom button on the product for 3 seconds to activate; a flashing LED light will indicate the product is activated.
6. Using the remote, press and hold the bottom button to activate thrusting action.
7. Press the bottom button on the remote repeatedly until the desired speed is reached.
8. To turn off thrusting action, press and hold the bottom button on the remote for 3 seconds.
9. To deactivate, press and hold either button on the product for 3 seconds.

Remote control information:

Product name: OverDrive Waterproof Rotating Thruster

Product model: SE-4445-85-3

Frequency:433.92MHz Product temperature range: 0°C-45°C

Battery warning:

Risk of explosion if battery is replaced by an incorrect type, dispose of used batteries according to the instructions. Disposal of a battery into fire or a hot oven, or mechanically crushing or

cutting of a battery, that can result in an explosion; Leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas;

Referring to Article 10.2 of the Directive, this equipment is so constructed that it can be operated in all Member States, without infringing applicable requirements on the use of radio spectrum.

The device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

1. L'appareil ne doit pas produire de brouillage;
2. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

- RF exposure statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Déclaration d'exposition RF:

L'appareil a été évalué pour répondre aux exigences générales d'exposition aux RF. L'appareil peut être utilisé dans des conditions d'exposition portable sans restriction.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

(15.21 Information to User)

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to

correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.**
- Increase the separation between the equipment and receiver.**
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.**
- Consult the dealer or an experienced radio/TV technician for help.**

RF warning for portable device:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
