

Smart Watch User Manual

Watch Charging

·For first-time use, please charge the watch; The watch adopts a magnetic charging interface. After connecting the magnetic cable, the power is turned on. It is recommended to use a charger with a specification of 5V 1A or higher to charge the watch. After charging is complete, please turn off the power or unplug the magnetic cable.

Declaration: When using a power adapter for power supply, it is necessary to purchase a matching power adapter that meets the corresponding safety standards or a power adapter that

has obtained CCC certification.

First startup

·After holding down the power button for 5 seconds, the watch will display a power on screen. The first time the smart device is turned on, it needs to check various applications, which may take a long time. Please be patient and wait.

Key function

Power button: Long press to turn on the device;

·Clock interface, short press to achieve screen shutdown function;

·Clock interface, double-click to start the recent task function;

·Press and hold for 3 seconds in the power on state to enter the shutdown and restart selection interface;

·If improper operation causes the watch to crash, press and hold the power button for 10 seconds to forcibly restart the watch.

Return button: In the dial interface, short press to enter the main menu;

·Non dial interface, short press to return to the previous level.

Flashlight button: Short press to turn on the flashlight, and short press again to turn off the flashlight.

Sliding operation

·Clock interface, slide down on the left side of the screen to enter the notification center, and slide down on the right side of the screen to enter the control center;

·Swipe left on the clock interface to enter the main menu.

watch dial

1. The main screen of the watch can display dazzling dials, and we have pre-set multiple dials for you;
2. Users can enter the dial selection mode by long pressing the dial on the dial interface, and slide left and right to choose multiple dials on their own.

main menu

The basic applications included in the main menu are: phone, messaging, settings, browser, calendar, alarm clock, photo album, music, recording, file management, sports, calculator, app market, camera, heart rate monitoring (the functions inside the watch may increase or decrease according to the actual needs of the manufacturer, please refer to the actual watch).

※ Positioning function

1. Scan the following QR code on your phone or scan the QR code of the mini program in the QR code on your watch to enter the Pomelo Guardian mini program. (Alternatively,

search for the "Pomelo Guardian" mini program directly on WeChat)

2 Enter the mini program, register and log in, click on 'My', and you can view the usage instructions in the help manual.

reminder:

The charging cable of the watch is a magnetic top pin contact. When charging, first confirm that the charger is normal, the contact is good, and the magnetic contact position is free of foreign objects and dirt. The battery of this product cannot be disassembled. Due to the product's own wear and tear, it may not be able to start up after being idle for more than a month due to the battery running out. Please charge the device regularly every week to ensure that it can work normally.

After being left for a long time, if the smartwatch is charged using a computer USB, it will take more than ten minutes for the charging icon to appear. Please be patient and it is

recommended to use a charger with a specification of 5V 1A or higher for charging.

Improper operation may cause the product to crash. You can press and hold the power button for 10 seconds to forcefully restart the watch.

When using high energy consuming programs such as making phone calls, surfing the internet, and watching videos on mobile networks, the watch's battery consumption may be relatively high, and there may be slight heating or scalding of the machine, which is a normal phenomenon. When the machine prompts a high temperature alarm, please reduce the use of such high-power applications.

The heart rate data obtained through this smartwatch is for reference only and cannot be used as a medical or diagnostic basis.

Our company reserves the right to modify this manual without prior notice.

statement

·The images in this manual are used to guide users and are for reference only. Please refer to the actual product for details;

·Our company is constantly improving and perfecting the functionality of our products.

If there are slight differences between the content stated in the manual and the actual functionality, specifications, or design of the product, we cannot notify you separately.

We apologize for any inconvenience caused. Therefore, any claims based on the data, illustrations, or textual descriptions in this manual will not be accepted.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

Caution

Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
