2. 打开手机“设置”, 搜索“T1” 点击设备名称配对, 显示“已连接”后, 指示灯停止闪烁, 即连接成功 (遥控器开启状态)。

产品参数

蓝牙名称: T1

主要材质: ABS塑料

工作电压: 2.8-3.6v

支持系统: Android, IOS, 鸿蒙

工作温度: -10~50°C

连接距离: 10米

电池容量: 120mAh

产品净重: 10g

待机时间: 180天

MADE IN CHINA

Remote control instructions

1. Toggle the switch (ON/OFF) on the back of the remote control, the remote control indicator light will flash automatically.
2. Open the cell phone “Settings”, search for “T1” click on the device name pairing, display “Connected”, the indicator light stops flashing, that is, the connection is successful (remote control on state). After the display shows “connected”, the indicator light stops blinking, that is, the connection is successful (the remote control is turned on).

Product Parameters

Bluetooth Name: T1

Main material: ABS plastic

Working voltage: 2.8-3.6v

Support system: Android, IOS, HarmonyOS

Working Temperature: -10~50°C

Connection distance: 10 metres

Battery capacity: 120mAh

Product net weight: 10g

Standby time: 180 days

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure statement

The device has been evaluatec to meel general RF exposure requirement. The device can be used in portable exposure condition without restriction.
