- 3 How do I network my devices**

Start by opening [Settings] - [Wi-Fi] on your device.

Once in the network list, select a Wi-Fi and press the OK key to connect

The password must be entered using the arrow key and the OK key.

-
- Attention:**
- (1) If you cannot find the WiFi name, check whether the router hides the WiFi.
- (2) The product does not support 5G WiFi connection, and the 5G related network name will not be displayed on the WiFi list.
- For iPhone 12 and later models, turn on the "Maximum Compatibility" option on the hotspot when connecting to the network.
- Path: Mobile 【 Settings 】 - 【 Personal hotspot 】 - [Maximum compatibility].
-
- 4 Intelligent AI large model**

It is equipped with an advanced AI large model that can communicate with children like a caring friend, execute all instructions, and answer their curious questions, such as "Why do stars twinkle?" It can also intelligently remind children of their daily schedules, like "It's time to do homework" or "Get ready for bed", helping them develop good time management habits. Let children grow up happily and explore the unknown with the company of the AI large model. It supports interruption and wake-up: for example, (shout "HELLO TIMI", remind me to drink water in 5 minutes. I'm in a bad mood, tell me a joke!)
 - 5 AI alarm clock**

Set wake-up times precisely to ensure children get up on time. For children, this feature helps them develop good daily routines and regular schedules, laying a solid foundation for their learning and activities throughout the day, while fostering a stronger sense of time management and self-discipline.

Type-C is not supported at both ends

FCC warning statements:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
