

smart Landscape Spotlights

Please read this manual carefully so that we can use the product and keep it for future use.

1 PRODUCT MODEL:AUR-SD

SPECIFICATION PARAMETER DESCRIPTION

THREE OPTIONS FOR POWER SUPPLY:

1.transformer power:transformer 5v

2.solar power: solar size:85X105mm

1.TRANSFORMER SPECIFICATIONS:

LED quantity:1/2/3/4/5/6LED distance200cm

Leadwire3Mer Total length:3M/5M/7M/9M/11M/13M

Input:120V,50/60HZ, 0.6A Output:DC6V2A

Input power(W):Pmax:5W Color temperaturndex/CRI:Ra80

Llluminance:34lm/w Power Factor(PF):PF>0.5

2.SOLAR SPECIFICATIONS

LED quantity:1/2/3/4/5/6LED distance:200cm

Leadwire:3Meter Total length:3M/5M/7M/9M/11M/13M

Solar Input:5V400ma

Output(V/A):5V1A Input power(W):Pmax:5W

Color temperatureindex/CRI: Ra80Llluminance:34lm/w Power Factor(PF):PF>0.5

2 INSTALLATION INSTRUCTIONS

AUR-SD

1. QUICK INSTALLATION GUIDE;

Installed successfully

Installed successfully

① Download this software
in the application APP

② In the Settings,
turn on Bluetooth and light
up the string of lights

③ Click on the APP
Light color adjustment

④ Light mode adjustment

FCC Warning:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions : (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

RF Exposure Statement

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance of 20cm the radiator your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.
