

DVR Inch Smart Screen Player

U-8801 User Manual

SKU : ZAOAWUVODA

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Monitor		10-inch color touch display Supports 1-Channel Dash camera, SD Card Memory Back-up, Bluetooth, Wi-Fi, FM Transmitter, Reverse Camera	1
Power cord		USB-C to Cigar Lighter power cable 7V~32V / 3A current	1
Reverse camera (Optional)		AHD FHD (1080P)/4PIN BMW head	1
Reverse Camera Extension cable (Optional)		Pull back headphone cable / 6m /2.5mm headphone +4PIN BMW head/ double shield / with reverse lamp trigger wire	1
Monitor base		1. Monitor base with 3M Tape (adjustable) 2. Monitor base with suction cup (adjustable)	2
SD Card (Optional)		32G-128G Class10 micro SD card	Not included
AUX Extension Cable		3.5 mm AUX cable / Male-to-male	1

3. Product description (1/2)

Name	Function	Description
System	Language	English / Korean / Spanish / French / German / Japanese / Italian / Portuguese / Simplified Chinese / Traditional Chinese
	Interface	Graphical menu operation
	Mode of operation	Touch
Dash Camera	Video Input	1-CH Recording Camera (built-in)
	Video mode	Automatic Recording (saved recordings when SD card is present)
	Video format	2KH, 264 video
Video display	Real –time display	HIGH-DEFINITION IPS screen
	Device playback	Playback available on screen
	Screen saver	Screen saver can be set to: off / 1 min / 2 min
Reverse display	Reverse Display	Automatically switches to the Reverse camera screen
	Parking Assist Line	Adjustable Parking Assist Line.
Phone Connectivity	CarPlay	Supports Wireless Apple CarPlay
	Android Auto	Supports Wireless Android Auto
	BT Music	Supports Bluetooth Music playback on Monitor's speakers

3. Product description (2/2)

Name	Function	Description
Audio (Sound output)	Speaker	Audio Playback on Monitor Speaker
	CarPlay/Auto	Audio Playback via Factory Bluetooth Audio
	FM	Audio Playback via FM Transmitter
	AUX	Audio Playback via AUX cable
Storage Capacity	SD Card (<i>not included</i>)	SD Card Requirements: CLASS10 U1 : 32GB minimum and 256GB maximum
Power	Power input	The voltage drop line supports 7 V ~ 32 V wide Voltage and has power protection circuits such as surge, overload, overvoltage, under voltage and short circuit
	Power consumption	Less than 10W
Other	Operating temperature	-4 ~ 149 °F
	Cool down Method	Passive cooling
	Recording time	Video recording duration can be set
	camera mirroring	The camera supports mirror display, can be turned off/on in the settings.

4. SD Card specifications

The quality of SD card has a great impact on the stability of video recording. To record video safely, use SD cards from major brands such as SanDisk, Kingston, Toshiba, and Samsung.

Speed certification must be at least Class10 .

5. Wiring instruction

The details are as follows

Port	Instructions
Type C interface	Connect to monitor
Cigarette charger	Connect to Cigarette Charging port in car

6. Camera installation (Optional)

Install the *optional* reverse camera to the rear of the car. Determine a suitable location for the camera to mount it. Drilling may be necessary. Please protect all factory wiring and electronics from damage and water (retain waterproofing protection where applicable).

Connect the red wire of the supplied reverse camera directly to the positive wire of the reverse lamp.
