

GC3001
Control Box
Product User Manual

01 Product Introduction

The GC3001 Control Box is a 433MHz wireless remote control copier that supports integration with Smart Life. It is primarily designed for curtain devices that are compatible with 433MHz remote control. Non-smart curtains can be integrated with Smart Life by connecting to the GC3001, enabling mobile and remote control. This provides users with a convenient smart experience

02 Connect to Smart Life APP

Scan the QR code for Smart Life or search for "Smart Life" in the app store, download and install the app. If it is your first time to download and use, please register an account and log in.

Press and hold the device button for 3 seconds, and the white light on the device will flash, indicating that it has entered the network configuration state.

Open the Smart Life APP, click the "+" on the top right corner of the homepage, and enter the device addition page to start searching for devices.

Click on the discovered device, fill in the Wifi information, and follow the instructions to proceed.

Guidelines for distribution network

Press and hold for 3 seconds to reset the device to factory settings. The indicator light will flash, indicating that the device is in the network configuration state

- During the connection process, please ensure that your phone is connected to 2.4G Wi-Fi and keep it as close as possible to this product;
- If the addition fails, please press and hold the device button for 3 seconds until the indicator light flashes, and then reconnect;
- The device must be installed in the same space as the curtain motor to avoid affecting signal transmission.

03 Add/delete curtain motor

Addition of curtain motor

- 1 The added curtain motor must be properly aligned with the transmitter and have its upper and lower limit switches properly set
- 2、Enter the Smart Life APP homepage, click on the added smart controller, and enter the smart controller page。
- 3、Click "Add Device" at the bottom of the page to enter the "Select Device Type" interface
- 4、Select the type of curtain you are about to add, enter the "Device Code Addition" interface, and follow the instructions to add the code

Delete curtain motor

- 1、Enter the Smart Life APP homepage, click on the added smart controller, and enter the smart controller page。
- 2、Long press the added curtain motor device, and the page enters a selectable state
- 3、Select the curtain motor you want to delete and click "Delete"
- 4、After successful deletion, the curtain motor device will disappear from the homepage of the smart controller
- 5、You can also access the control page of the device you wish to delete, click on "More Settings", and then proceed to the settings page. From there, click on "Delete Device" at the bottom to complete the deletion process

04 Product Parameters

Product Name : Control Box

TYPE : GC3001

Adapter Output : DC5V/1A

Maximum Power Supply : 5W

Working Temperature : -10℃ ~ +55℃

Working Humidity : 10%~90%(no condensation)

Wireless Technology : 433.92MHz, Bluetooth and Wi-Fi

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20 cm between the radiator & your body.
