Safety Instructions

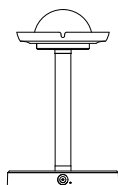

Read and follow the safety instructions below:

- Do not attempt to open or modify the lamp's internal components.
- The operating temperature should be between 14°F and 104°F (-10°C to 40°C).
- Do not allow children to assemble the lamp by themselves.
- Keep the lamp away from heat sources.
- Do not place the lamp near open flames (e.g., candles) or objects filled with liquids.

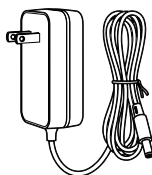

Packing List

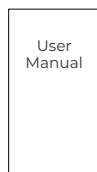

Lampshade

Lamp Body

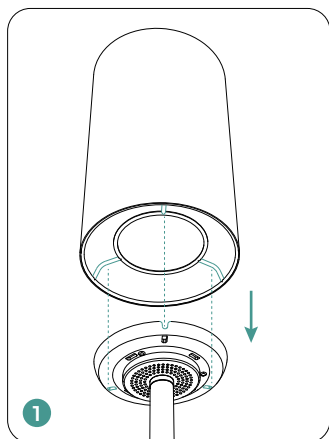

Power Adapter

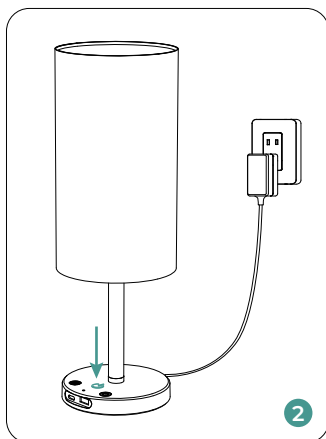

User Manual

Installation Instructions

Install the Lampshade

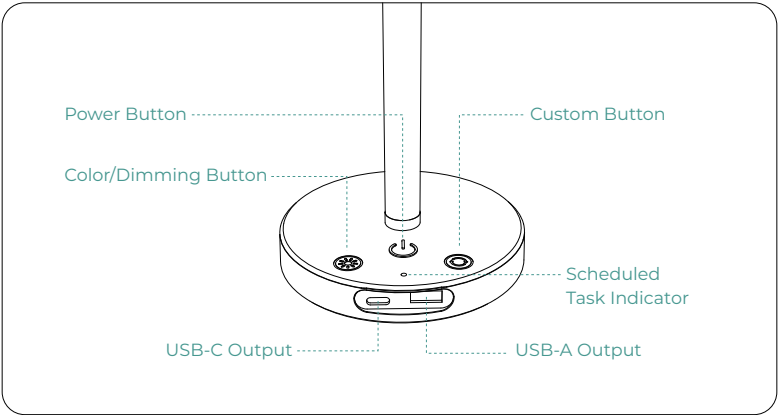

Align the retaining ring with the groove, then press down until secure.

Connect & Turn On

Connect the adapter, then touch the power button.

Touch Control Guide

Power Button:

Touch once to turn the lamp on or off.

Color/Dimming Button:

Tap to change colors, press and hold to adjust brightness.

Custom Button:

Tap to switch to your customized lighting mode. (Factory default: Toggles between white light and RGB color modes)

Note

The Color/Dimming Button and Custom buttons can be customized in the app under [Device Settings > Button Settings](#).

Scheduled Task Indicator:

When setting a schedule or Sleep/Wake routine in the app, you can choose to turn this indicator on or off. When enabled, it indicates that a scheduled task is active.

Note

This indicator does not apply to countdown timer.

Specification	Details
Model	TL03
LED Power	6 W
Dimming	Stepless Dimming (1%–100%)
Light Colors	Warm White / Natural White / Cool White / RGB
App Connection	Bluetooth
Adapter Input	100–240 V AC
Adapter Output	12 V / 2 A
Charging Ports	1 × USB-A + 1 × USB-C
USB Charging Output	Single Port: 5 V / 2.6 A Max. Dual Port: 5 V / 2.6 A Max. Total (Shared)

APP Features

IMPORTANT NOTICE

Keep the Lamp Connected to Power

Keep the TL03 plugged in using the included adapter. The lamp does not need to be turned on.

Stable Bluetooth Connection

For best results during pairing, keep your smartphone near the lamp.

Smart App Pairing ("Fulnix")

01. Download

Search for "Fulnix" in the App Store or Google Play

02. Ensure Bluetooth is active on your smartphone

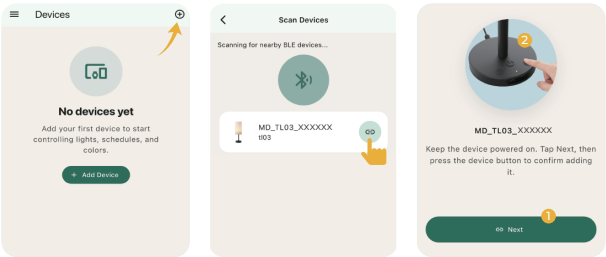

03. Register

Open the app and register or log in to your account.

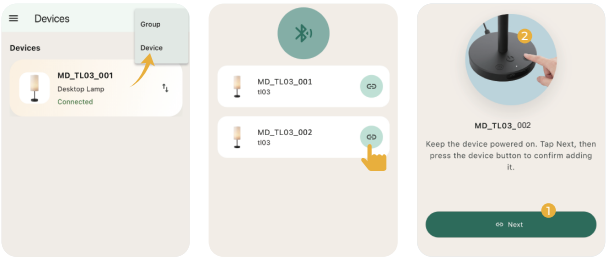

04. Search for devices

Tap the "+" icon in the top right corner, select "Device", and find "MD_TL03_XXXXXX". Tap to add the device and follow the onscreen instructions to complete pairing.

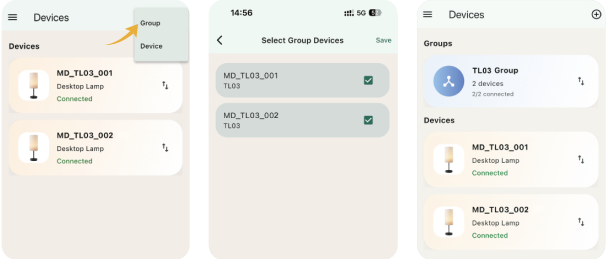

05. Adding more devices

To add more devices, simply repeat the previous steps for each additional light.

06. Group control

Tap the "+" icon again, select "Group", and check both added devices to synchronize them.

Now you can control both lights simultaneously.

IMPORTANT SAFETY INSTRUCTIONS

1. For indoor use only. Keep the lamp away from water, moisture, and open flames.
2. Use only the supplied AC adapter. Input: AC 100–240 V; Output: 12 V DC, 2 A.
3. Unplug the lamp before cleaning. Clean with a soft, dry cloth.
4. Do not disassemble, modify, or attempt to repair the lamp yourself.

Troubleshooting

Q1 The lamp does not turn on

- A** Disconnect both ends of the included adapter, then reconnect them securely. Make sure the white indicator light at the lamp's power port is on, then tap the Power button to turn the lamp back on.

Q2 The custom button does not work as expected

- A** The Custom button must be set up before use. In the Fulnix app, tap the menu in the top-right corner, select "Button Setting" assign one custom action, and tap "Save."

Q3 The Fulnix app cannot connect to the lamp

- A** Make sure the lamp isn't connected to another phone. Turn on Bluetooth, move your phone close to the lamp, and try again. If it still won't connect, remove the lamp from the Fulnix app and pair it again.

Q4 A schedule, sleep, or wake timer does not run

- A** Keep the lamp powered. After a power interruption, reconnect the app and reactivate the function.

Q5 The lamp turns off before sleep mode ends

- A** Check whether another timed task overlaps with sleep mode. An overlapping scheduled On/Off action may take effect first.

Q6 USB charging is slow or does not work

- A** Reconnect with a compatible cable and device. Charging may be slower when both USB ports are used because power is shared.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used exposure condition without restriction.
