Solder Board-Component View 6	 A photograph of a green printed circuit board (PCB) with various electronic components, including a red integrated circuit and several resistors. A circular component with a spiral pattern is connected to the board via two thin wires. The assembly is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler is oriented vertically, with the 0 mark at the top and the 100 mm mark at the bottom.
Solder Board-Component View 7	 A photograph of the same green PCB assembly as in View 6, but from a different angle. The circular component with the spiral pattern is now positioned above the board, and the two connecting wires are visible. The assembly is placed on the same blue textured surface next to the same black ruler, which is oriented vertically with the 0 mark at the top and the 100 mm mark at the bottom.
