④ Use the Magnetic charging cable to charge headphones and red light on.
⑤ When your headphones is full power, the blue light on.

1. If the device doesn't turn on, first charge it to check if it has power.

3. Wireless connection must be within a 10-meter unobstructed range.
4. If connection issues persist within range, try turning the headphones off and turn them on again.
5. Clear the Wireless pairing list on your phone if too many devices are saved.

- After wireless pairing, press the volume-up button on the headphones to increase volume.
- Ensure your phone's volume is set to maximum.
- Make sure the headphones are properly positioned in your ears.

- 4. Check if the charging cable is properly aligned with the charging port.
- 5. Verify if the charging indicator light is solid red.
- 6. If the light is off, inspect the charging pins for damage or debris.
- 7. Clean any residue from the charging contacts before testing again.
- 8. After workouts, wipe sweat from the charging area for better charging performance.

ⓘ Don't use abrasive cleaning solvents to clean your device. Wipe them down with a slightly damp cloth if and when necessary.

— always enjoy the best sound possible from your device.

The rechargeable battery of this product must be properly disposed of for recycling. Please do not place the battery in a fire to avoid explosion.

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

* RF warning for Portable device:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
