CHARGING

Before using the bulb, check if the battery is sufficient. If the light is dim or does not light, please charge the bulb first.

When charging with a solar panel, connect the USB cable to the bulb and place the solar panel face up in a sunny place.

Step 1: Open the cover of USB port

Step 2: Insert the solar panel USB cable into the port

Step 3: Place the solar panel in a sunny place to charge it. The red indicator light will on

• You can use the mobile phone adapter, computer USB interface to charge the bulb. If you use other DC equipment to charge the bulb, please confirm that the charging voltage is in the range of DC5V. If you exceed this voltage range, the bulb will be damaged.

Step 1: Open the cover of USB port

Step 2: Insert the USB cable into the port with 5V DC 1A adapter

Step 3: The red indicator light will on

• The charging indicator light will be red while your bulb is charging and will turn green when it is fully charged.

FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. The user is encouraged to try to correct the interference by one or more of the following measures: (1) Reorient or relocate the receiving antenna. (2) Increase the separation between the equipment and the receiver. (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. (4) Consult the dealer or an experienced radio/TV technician. (5) Warning: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
