About the device

- ① 电源键 / Power
- ② 音量+ / Volume+
- ③ 音量- / Volume-
- ④ 麦克风 / Microphone
- ⑤ 充电接口 / Charging Indicato
- ⑥ 前置摄像头 / Front Camera
- ⑦ 光感感应 / Light sensor
- ⑧ 扬声器 / Speaker
- ⑨ Type-C Port
- ⑩ SIM / micro SD
- ⑪ 闪光灯 / Flashlight
- ⑫ 后置摄像头 / Rear Camera

Service Policy

This product strictly complies with the "Regulations on the Responsibility of Repair and Return of Microcomputer Products" and provides three year warranties for consumers who purchase the BNCf Tablet. For detailed service policies, please refer to: www.bncfai.com

Security Information

Before using and operating the equipment, to ensure optimal performance of the equipment and to avoid hazardous or illegal situations, please review and follow all safety information.

System security warning

Please upgrade the system through the official after-sales service outlets or the system upgrade function that comes with the device. If other methods are used to upgrade the system, the system security capabilities may be damaged and security risks may be triggered. The company does not assume the responsibility for repairs caused by this. This. Accessing network resources makes the device vulnerable to computer viruses, hackers, spyware and other malicious behaviors, which may damage the device, software or data. You should ensure that the computer is fully protected by firewalls, antivirus software and anti-spyware software, and keep these software up to date.

Tablet Power On/Off Instructions:

1. Power On: Press and hold the power button for 3 seconds until the screen lights up and displays the startup animation.
2. Power Off: While the tablet is on, press and hold the power button for 3 seconds until the shutdown menu appears, then select "power off".
3. Forced Power Off: Press and hold the power button for more than 10 seconds to force a shutdown.

Operation and safety

- To prevent possible hearing damage, do not use high volume for long periods of time.
- Please use this device in the temperature range of 0°C-35°C, and store the device and its accessories in the temperature range of -20°C-45°C. When the ambient temperature is too high or too low, it may cause device failure.
- Do not expose the device and its battery to high temperatures or around heating devices, such as sunlight, heaters, microwave ovens, ovens or water heaters. Overheating of the battery may cause explosion.
- When the device is charging, the power socket should be installed near the device and should be easily accessible.
- When charging is completed or not charging, disconnect the charger from the device and unplug the charger from the power socket.
- Do not use the charger in humid places (such as near a sink, bathroom or shower room), and do not plug or unplug the charger with wet hands.
- This device uses a non-removable built-in battery. Do not replace the battery by yourself to avoid causing the device to malfunction or battery damage. For your personal safety and to ensure the normal operation of the product, it is strongly recommended that you go to the official customer service center to replace the battery of this device.
- Please dispose of this device, battery and other accessories in accordance with local regulations, and do not dispose of them as domestic waste. Improper battery disposal may cause the battery to explode.
- Do not throw the battery into fire, disassemble, drop, squeeze or modify the battery, avoid inserting foreign objects into the battery, puncturing the battery, connecting the battery to water or other liquids, and avoid external impact and pressure on the battery. Do not use the battery in a fire or other hazardous environment.
- Using unapproved or incompatible power supplies, chargers or batteries may cause fire, explosion or other hazards.
- Only accessories approved by the device manufacturer and compatible with the model of device can be used. If other types of accessories are used, it may violate the warranty terms of this device and the relevant regulations of the country where this device is located, and may cause safety accidents. To obtain approved accessories, please contact the official customer service center.
- The radio waves generated by the device may affect the normal operation of implanted medical devices or personal medical devices, such as pacemakers, cochlear implants, hearing aids, etc. If you use these medical devices, please consult their manufacturers for restrictions on the use of this device.
- When using this device, keep at least 15 cm away from implanted medical devices (such as pacemakers, cochlear implants, etc.).
- Using unauthorized third-party software to upgrade the device's firmware and system may cause security risks such as the device becoming unusable or losing personal information. It is recommended that you use official upgrades or send the device to an official customer service center for repair and upgrades.
- To prevent data loss, it is recommended that you back up the device in time during daily use, before upgrading the device, or before sending it for repair.

Name and content of harmful substances in products

To comply with laws and regulations regarding the restriction of hazardous substances in electronic and electrical products, Dongyuan Intelligent (Shenzhen) Co., LTD. classifies the hazardous substances in this product, its component and makes the following statement.

	Harmful Substance					
	Plumbum (Pb)	Mercury (Hg)	Cadmium (Cd)	Hexavalent chromium (Cr6+)	Polybrominated biphenyls (PBB)	Polybrominated biphenyls (PBDE)
Motherboard	X	○	○	○	○	○
Screen	○	○	○	○	○	○
Plastic	○	○	○	○	○	○
Metal	X	○	○	○	○	○
Battery	X	○	○	○	○	○
Battery	X	○	○	○	○	○

This table is prepared in accordance with the provisions of SJ/T 11364.
○ Indicates that the content of the hazardous substance in all homogeneous materials of the component is below the limit requirements specified in GB/T26572.
X Indicates that the content of the hazardous substance in at least one homogeneous material of the component exceeds the limit requirements specified in GB/T26572, and there is currently no mature alternative solution in the industry, which complies with the environmental protection requirements of the EU RoHS Directive.

The number in this mark indicates that the environmental protection use period of the product under normal use is 10 years. Some parts may also have an environmental protection use period mark, and their environmental protection use period shall be based on the number in the mark. Due to different models, the product may not include all of the above parts except the main unit. Please refer to the actual sales configuration of the product.

Fonctionnement et sécurité

- Pour éviter d'éventuels dommages auditifs, n'utilisez pas un volume élevé pendant de longues périodes.
- Utilisez l'appareil uniquement dans une plage de température de 0°C-35°C et stockez l'appareil et ses accessoires dans une plage de température de -20°C-45°C. Lorsque la température ambiante est trop élevée ou trop basse, une panne de l'équipement peut survenir.
- Ne exposez pas l'appareil et sa batterie à des températures élevées ou à proximité d'appareils de chauffage, tels que la lumière du soleil, des radiateurs, des fours à micro-ondes, des fours ou des chauffe-eau. Une surchauffe de la batterie peut causer une explosion.
- Lors du chargement de la batterie, le port de recharge doit être installé à proximité de l'appareil et le câble doit être facilement accessible.
- Lorsque le chargement est terminé, débranchez le chargeur de l'appareil et débranchez le chargeur de la prise de courant.
- N'utilisez pas le chargeur dans des endroits humides comme près d'un évier, d'une baignoire ou d'une salle de douche et ne branchez ou ne débranchez pas le chargeur avec les mains mouillées.
- Cet appareil utilise une batterie intégrée non amovible. Ne remplacez pas la batterie vous-même, sinon l'appareil pourrait ne pas fonctionner correctement ou la batterie pourrait être endommagée. Pour votre sécurité personnelle et pour assurer le fonctionnement normal du produit, il est fortement recommandé de vous rendre au centre de service client officiel pour remplacer la batterie de cet appareil.
- Évitez jeter cet appareil, les piles et autres accessoires conformément aux réglementations locales et ne les jetez pas avec les déchets ménagers. Une mauvaise manipulation des piles peut les faire exploser.
- Ne jetez pas la batterie au feu. Ne démontez pas, ne laissez pas tomber, n'écrasez pas et ne modifiez pas la batterie. Évitez d'insérer ou de percer la batterie avec des objets étrangers ou de l'immerger dans l'eau ou d'autres liquides, y compris les larmes, la sueur, les incendies ou les explosions de la batterie.
- L'utilisation d'alimentations électriques, de chargeurs ou de batteries non approuvées ou incompatibles peut provoquer un incendie, une explosion ou d'autres dangers.
- Utilisez uniquement des accessoires approuvés par le fabricant de l'équipement pour ce modèle d'équipement. Si vous utilisez d'autres types de accessoires non approuvés, cela peut entraîner des dommages à l'appareil et des blessures graves ou la mort.
- Les ondes radio émises par l'appareil peuvent affecter le fonctionnement normal des dispositifs médicaux implantés ou des dispositifs médicaux personnels, tels que les stimulateurs cardiaques, les implants cochléaires, les aides auditives, etc. Si vous utilisez des dispositifs médicaux, veuillez consulter le fabricant pour connaître les restrictions d'utilisation de l'appareil.
- Lorsque vous utilisez cet appareil, veuillez garder une distance d'au moins 15 cm des dispositifs médicaux implantés (tels que les stimulateurs cardiaques, les implants cochléaires, etc.).
- L'utilisation d'un logiciel tiers non autorisé peut mettre à niveau le micrologiciel et le système de l'appareil peut entraîner des risques de sécurité. Nous vous recommandons d'utiliser l'appareil ou la suite de vos informations personnelles. Il est recommandé d'utiliser la mise à niveau en ligne ou d'envoyer l'appareil à un centre de service client officiel près de chez vous pour la mise à niveau.
- Pour éviter la perte de données, il est recommandé d'effectuer des sauvegardes en temps opportun lors de l'utilisation quotidienne, avant de mettre à niveau l'appareil ou avant de l'envoyer en réparation.

Thank you for choosing BNCf!

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Specific Absorption Rate (SAR) Information:

This **Tablet PC** meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

FCC RF Exposure Information and Statement

The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: Tablet PC (FCC ID: **2BLP7-AD8Z**) has also been tested against this SAR limit. The highest SAR value reported under this standard during product certification for worn on the body is **0.467W/kg**. This device was tested for typical body-worn operations with the back of the handset kept 0mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 0mm separation distance between the user's body and the back of

the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

Body-worn Operation

This device was tested for typical body-worn operations. To comply with RF exposure requirements, a minimum separation distance of 0mm must be maintained between the user's body and the handset, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.

IC Warning

This device complies with Innovation, Science and Economic Development Canada

licence-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference, and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

RF Exposure Information and Statement

The SAR limit of USA is 1.6 W/kg averaged over one gram of tissue. Device types: Tablet PC (IC: **33163-AD8Z**) has also been tested against this SAR limit. The highest SAR value reported under this standard during product certification for worn on the body is 0.467W/kg. This device was tested for typical body-worn operations with the back of the handset kept 0mm from the body. To maintain compliance with IC RF exposure requirements, use accessories that maintain a 0mm separation distance between the user's body and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with IC RF exposure requirements, and should be avoided.

Body-worn Operation

This device was tested for typical body-worn operations. To comply with RF exposure requirements, a minimum separation distance of 0mm must be maintained between the user's body and the handset, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.

Cet appareil est conforme aux normes RSS sans licence d'innovation, sciences et développement économique Canada. Les opérations sont soumises aux deux conditions suivantes:

- (1) Cet appareil ne peut pas causer d'interférences, et
- (2) Cet appareil doit accepter toute interférence, y compris celles qui pourraient entraîner un fonctionnement accidentel de l'appareil.

RF exposition Information et Déclaration

Le DAS moyen aux États - Unis est limité à 1,6 W / kg par gramme de tissu. Type d'appareil: tablette (IC: **33163-AD8Z**) a également été testé pour ces valeurs. Lorsqu'il est prouvé que le produit peut être porté correctement sur le corps, son poids est de 0,467 W / kg. L'appareil a été testé et peut fonctionner correctement lorsqu'il est porté sur le corps, l'arrière du téléphone restant à 0 mm du corps. Pour maintenir la conformité IC, utilisez des accessoires qui maintiennent la distance
