WARNING

Please read carefully and follow the following warnings and instructions. Failure to follow these instructions could result in serious injury or death.

- This product is not a toy. Keep out of reach of children. Do not throw or drop it.
- The Bath Bot is powered by a rechargeable lithium-ion battery pouch. If ingested, **lithium-ion batteries can cause severe burns and can lead to death**. If you think batteries or any charging components might have been swallowed or placed inside any part of the body, seek immediate medical attention.

To avoid a risk of electric shock, burns or fire:

- Do NOT fully submerge the Bath Bot. Although the Bath Bot is water resistant, it is not a submersible audio device and is intended for shower or bath-surface use only.
- The Bath Bot is intended for indoor use only and is NOT appropriate for pools, hot tubs, or bodies of water, such as ponds or the ocean.
- Do NOT use the charging dock near water or in moist environments, such as bathrooms.

- Do NOT insert any object into the speaker and do NOT press on the exposed speaker if the cover is removed.
- Do NOT use detergents, thinners, alcohol, or other harsh chemicals as these may compromise the water-repellent properties of the Bath Bot. To clean, use a soft, wet cloth ONLY on the surface of the Bath Bot.
- Do NOT use if the product has been damaged in any way, such as when the power-supply cord or plug is damaged, liquid has been spilled inside the product; or objects have fallen into the product; or the product does not operate normally or has been dropped.
- Do NOT alter or attempt to modify the product. Use only attachments and accessories specified by the manufacturer.
- Do NOT place a wet or damp Bath Bot on the charging dock. Allow the Bath Bot to dry fully before placing on the dock. Invert the unit and shake, gently dry the surface with a towel, and let air dry. Charging the product when wet or exposed to water may result in permanent damage to the speaker or power source.
- To avoid potential hearing damage, do NOT listen to the Bath Bot at high volumes for a prolonged period of time.

The Bath Bot contains a magnet which may interfere with pacemakers, or other medical devices. Do not place this product close to persons who use such medical devices. Consult your doctor before using this product if you use any such medical device.

NOTICE

- To avoid potential damage to the Bath Bot, remove from charging dock when fully charged.
- Do not expose the product to excessive heat such as direct sunlight, fire (including naked flame) or similar.
- The Bath Bot is intended for use only in temperatures between 0°C and 35°C or (32 and 95 F). Use, charging, or storage in temperatures outside this range may damage the unit.
- Charging dock and USB C cable provided only.

Notes on water and dust-resistance features

The Bath Bot speaker has a waterproof specification of IP47 as specified in "Degree of protection against water immersion" of the IEC60529 "Ingress Protection Rating (IP Code)". The supplied charging dock is neither water or dust-resistant and has an associated specification of IP20. The supplied accessories and the connectors of this unit (USB) are neither water or dust-resistant. To reduce the risk of fires or electric shocks, do not expose the unit to water or droplets while using any connectors (USB).

Changes or modifications

Do NOT alter or attempt to modify the product. Use only attachments and accessories specified by the manufacturer.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Model Identification:
Bath Bot 01

This speaker contains: Espressif Systems ESP32-PICO-MINI-02 Bluetooth
Module with PCB Antenna. FCC ID 2AC7Z-ESPICOMINI

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help
