To switch off your notebook, please do one of the following:

1. Press and hold the power button for a while.

2. ① Click on start menu , ② click on power , ③ then select shut down .

Specifications

Model Name: QL15R3BM8256

Processor		
Processor	AMD Ryzen™ 3 3200U	
Storage		
DDR	8 GB	
SSD	256GB	
Display		
LCD Display	1920*1080 Pixels	
Type	FHD IPS	
Size	15.6 Inch	
I/O ports		
USB	1x USB3.0	
Type-C	1x Type-C data only	
Video Output	1x HDMI	
Memory Card Port	1x Micro SD card	
Headphone Jack	1x Headphone Jack	
Integrated Devices		
Camera	Front Camera 2.0 M pixel	
Bluetooth	5.0	
Wi-Fi	802.11b/g/n/ac	
Battery Pack		
Type	Lithium-ion polymer Battery	
Capacity	5100mAh	
Max Voltage	11.4V	
AC Power Adapter		
Input	AC 100- 240 V	
Output Voltage	19 V, 3.42A

Check Your Notebook Specifications

To check your notebook specification, please do one of the following:

- 1.Open **Control Panel**, select **System and Security** and then select **System**.
2. Type **System information** in the search bar.

FCC Statement

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Specific Absorption Rate (SAR) information:

This device meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health. FCC RF Exposure Information and Statement the SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: This device has also been tested against this SAR limit.

This device was tested for typical body-worn operations with the back of the This device kept 0mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain an 0mm separation distance between the user's body and the back of the This device. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.
