CONTENT

3-in-1 car phone mount
USB-C to USB-C cable
Instruction manual
IVPH2188

PRODUCT SPECIFICATION

Cable length: 1m
Color: black
Material: ABS
Wireless charger 15W Input: 5V/3A, 9V/2A
Output: 5W, 7.5W, 10W, 15W
Operation frequency: 110.1-205 KHz
Max RF output field strength: 36.3 dB μ A/m @
3m Extendable arm from 8.9 to 13.5cm
Min. phone width 66mm
Max. phone width 100mm
Windshield mount of suction cup
360° rotation

ITEM OVERVIEW

PARTLIST

1. Phone holder/ charger

2. Fastening ring

3. Suction cup

4. USB cable

ASSEMBLY INSTRUCTION

1: Put fastening ring (2) over the ball on the suction cup (3) .

2: Put the phone holder(1) into the suction cup(3).

3: Fasten the ring(2) on the phone holder(1)

4: Connect USB cable (4) to the phone holder (1)

INSTRUCTION TO USE

1. The car phone holder can be installed on the windshield. (Installing holder on dashboard or any other place than windshield is not recommended- distributor and retailer are not responsible for undesirable effects.) Put the clip on the suction cup in the upwards position. Remove the adhesive protective film and place the suction cup on the windscreen. Put the clip on the suction cup in the downwards position. NOTE: the windshield on which the suction cup is to be mounted on must be clean and dry, otherwise, the use effect may not be ideal.
2. Once the holder is mounted on your car's windshield, connect the USB-C end of the cable to the power input of the wireless charger and the USB-A end of the cable to the power output of your car. Place your phone with wireless charge support between the clips to charge.

Caution: This charger will not function when phone or phone case have a magnetic plate.

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance of 20 cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
