<p>Solder Board-Component View 2</p>	 A photograph of a silver-colored metal solder board component with a complex, irregular shape. It features two circular mounting holes on the left side and a central rectangular cutout. The component is placed on a blue background next to a metal ruler for scale. The ruler shows measurements in millimeters, with the component's width being approximately 10 mm.
<p>Solder Board-Component View 3</p>	 A photograph of the same solder board component from a different perspective, showing its top surface. It has a QR code on the left side and a central rectangular area with a green component and a red component. The component is placed on a blue background next to a metal ruler for scale. The ruler shows measurements in millimeters, with the component's width being approximately 10 mm.

<p>Solder Board-Component View 10</p>	 A photograph of a small electronic component, identified as TX-WT1-A03, mounted on a green PCB. The component is positioned between two metal rulers for scale. The ruler on the left shows centimeters from 1 to 9, and the ruler on the bottom shows millimeters from 1 to 8. The component has a black wire attached to it, which ends in a small metal connector. The background is a blue surface.
<p>Solder Board-Component View 11</p>	 A photograph of the same electronic component, TX-WT1-A03, mounted on a green PCB, viewed from a different angle. The component is positioned between two metal rulers for scale. The ruler on the left shows centimeters from 1 to 9, and the ruler on the bottom shows millimeters from 1 to 9. The component has a black wire attached to it, which ends in a small metal connector. The background is a blue surface.
