背面

Parameter Support Protocol: HSP、HFP、A2DP、AVRCP Effective range: ≤10m Working frequency: 2.402GHz-2.480GHz Charging time of earbuds: ≤1.5 小时 Charging time of case: ≤2.5 小时 Music play time：≥4 小时 Standby time of earbuds: ≥40 小时 Warning The power adapter suitable for the earbuds is 5V / 1A. If you use an excessively high voltage power adapter to charge this earbuds , there is a risk of burning it. 1. On / Off Method one Power On: Automatically powers on when taken out of the case (the left and right earbuds will automatically connect to each other after powering on) Power Off: Automatically powers off when placed into the case (earbuds charge and power off). Method Two Press and hold on MFB 3 seconds Red and blue light flash alternately Press and hold on MFB 5 seconds Red light lasts 2 seconds	2.Connect and pair mobile phones After leaving the box, it will automatically power on and enter the interconnected state. After 2 seconds, the binaural interconnection is successful and enters the pairing state. Note: long press the multi-function button of the earbuds, it will automatically enter the pairing state after 5 seconds Turn on the Bluetooth function on your phone, locate the product's Bluetooth name, and tap the name to pair. Note: Waiting for pairing within 5 minutes after successful interconnection, After 5 minutes the earbuds will automatically power off 3. Play / Pause / Up and Down Short press the MFB button to pause, Press again to resume playback Right Double-click for the previous song Left Double click for next song 4. Volume adjustment Continuously click the MFB button on R earbud 3 times Continuously click the MFB button on L earbud 3 times 5. Call function answer a call/ hang up a call : Short press the MFB button Reject a call : Long press and hold a MFB button Siri: Long press and hold a MFB button 2 seconds

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
