	Storage error: Green light flashes quickly.
Button	It does not support power on or off.
	Turn on/off recording: Click the button to turn on/off recording.
	Reset: Long press 6s to reset.

5 INSTALLATION

1.Clean an area on the windshield where you wish the Dash Cam to be installed, this assists in adhesion.

2.Gently push the Dash Cam into the bracket, which is fixed by a magnet inside the bottom of the bracket.

3.Remove the protective film from the back of the bracket, attach the adhesive side of the mount on the windshield where it has an unobstructed view of the road but does not interfere with the driver's view. As shown below.

4.Use the installation tool to lift the edges of the windshield/molding and tuck in the power cable. Connect the Dash Cam to the car charger (plugged into cigarette lighter socket) and power cable.

5.After the car starts, the Dash Cam powers up and starts recording.

6 APP INSTRUCTION

Install DDPAI APP

Scan the QR code to download the "DDPai" APP.

Pair Smart Phone to Dash Cam

1.Keep the Dash Cam and mobile phone within 2.5meters.

2.Launch DDPAI App, tap on "Device > Connect new devices".

3.Choose your DDPAI Dash Cam from the network list(For Android system, App will start to search Dash Cam network automatically. For iOS phone: turn on WLAN from "Settings ->WLAN"). The Dash Cam's default SSID (or Wi-Fi name) is DDPAI_MINI5_XXXX.

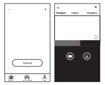
4.Enter the password
(the default password is '1234567890').

5.Enter DDPAI App, wait a few seconds until the preview screen show.

Preview

1.Open the DDPAI App, and add your Dash Cam.

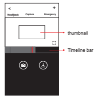
2.Select "Device > Entering" tab, this will bring you to the preview page.



Rotate your smart phone or press expand ⛶ icon, turn the preview screen to landscape mode.

Playback

Tap and left/right drag timeline bar at the screen bottom to create the starting point of the recording you wish to preview, then tap on thumbnail when you have made your selection, or wait for 5 sec for buffering, now you can watch the history recording.



Download Video Files

1.Tap and left/right drag timeline bar at the screen bottom to create the starting point of the recording you wish to download, then tap on thumbnail when you have made your selection, or wait for 5 sec for buffering, to enter the download start screen.

2.Tap on ⬇ from preview screen to enter the download interface.

3.After the video has finished downloading, click "Complete".

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna. -- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
1. This device may not cause harmful interference. 2. This device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly Approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement:
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
