Declaration of Equality

We, Hörmann KG Antriebstechnik, declare on our sole responsibility that the properties of the product

SilentDrive-7560

are the same as those of the product

SilentDrive-8560.

with the following exemptions: The SilentDrive 7560 has a NIDEC DCK31 motor with one Hall sensor, whereas the SilentDrive 8560 has a NIDEC DCK35 motor with two Hall sensors. Therefore, the SilentDrive 8560 has an additional terminal channel, as shown in Picture 1.

If you have any questions, please feel free to contact us at the address shown above.

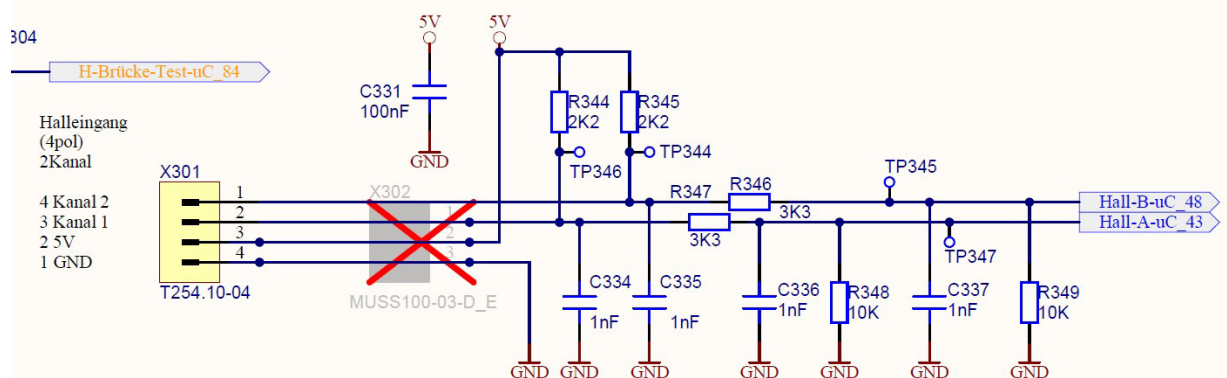

Mit freundlichen Grüßen / Kind regards

Hörmann KG Antriebstechnik

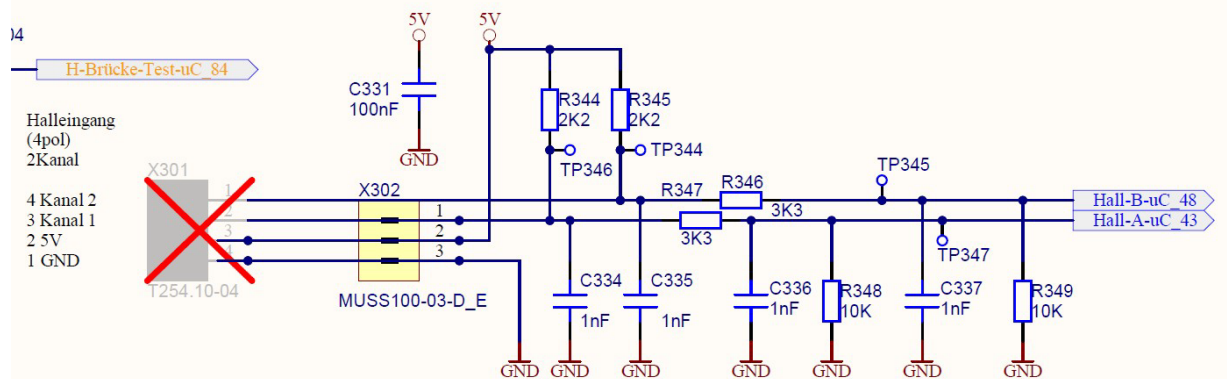

Stefan Becker

Hallgeber DC-Motor

Hallgeber DC-Motor

Picture 1: A comparison between garage door openers. SilentDrive 8650 (above): The X301 terminal has an additional channel for a second Hall sensor. SilentDrive 7650 (below): Due to having only one Hall sensor, Terminal X302 with one less channel is used.
