WIRELESS **CLIP-ON MICS**
with **WIRELESS CHARGING CASE**

User Guide

Introduction

Thank you for choosing this product. This wireless microphone delivers clear, professional-quality audio. It's ready to use right out of the box—no app required. Ideal for live streaming, video recording, interviews, and online teaching. The system includes a charging case, microphone transmitters, and a receiver.

What's in the Box

Included

2 Microphone Transmitters

1 Receiver

1 Charging Case

1 Charging Cable

1 User Guide

Product Overview

① Windshield

② Status Indicator

③ USB-C Charging Port

④ Clip

⑤ Power Button

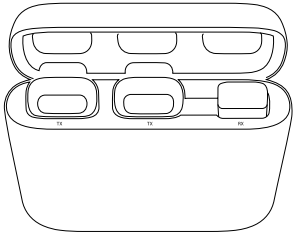

⑥ USB-C Connector

⑦ Receiver Status Indicator

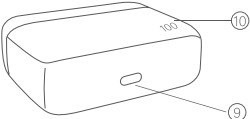

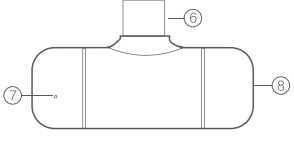

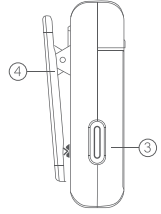

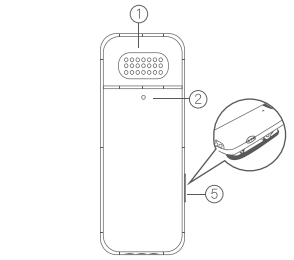

⑧ Receiver USB-C Port

⑨ Charging Case USB-C Port

⑩ Charging Case Indicator

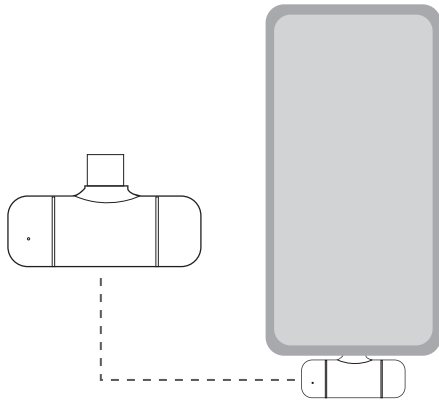

TX: Transmitter
RX: Receiver

How to use

Step 1:

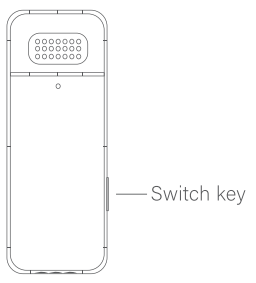

Connect the receiver to your phone's USB-C port.

Note: On some Android devices (OPPO, vivo, iQOO, realme), OTG must be enabled in system settings.

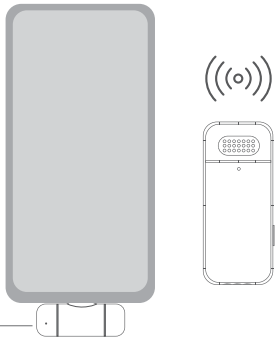

Step 2:

Press the microphone power button. The indicator light turns green when powered on.

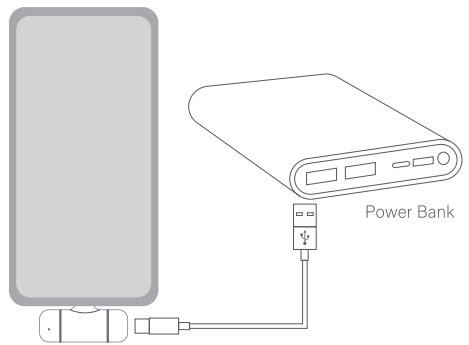

Step 3:

When the receiver indicator light is on, open your camera or recording app to begin recording.

Note:

The receiver does not contain a battery. Power is supplied directly by your device. If your phone battery is low, it can be charged while the receiver is connected.

Status Indicators

Microphone Transmitter

Questions?

hello@jmeandco.com

This device complies with part 15 of the FCC Rules, FCC ID: Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.
Noted: Changed or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this device. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and a receiver.
- Connect the equipment to an outlet on a circuit different from that on which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
