FREQUENTLY ASKED QUESTIONS

1. Unable to respond after turning on: Please check if the battery is properly connected or if the battery is fully charged.
2. Remote control unable to operate: Please confirm if the remote control has sufficient battery and aim it at the signal receiving port on the head of the mechanical dog during remote control. Exposure to strong light or sunlight can affect remote control operation.
3. Mechanical dog not following the control signal: Please check if the mechanical dog battery is fully charged. When the battery is low, the mechanical dog signal may reset or garbled.

WARNING

1. This product must be used under adult supervision.
2. This product contains small parts and should not be swallowed to avoid the risk of suffocation. Not suitable for children aged three and below.
3. Do not aim your eyes or face while playing, and be sure to use projectiles provided or recommended by the manufacturer.
4. Do not immerse any parts of this product in water. Please do not drop, throw or kick this product.
5. Do not modify this product, otherwise it may cause the product to malfunction.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
