

Manual RemoteControl HUMAC00052

Quick start

Compatibility

The functionality the remote offers depends on the version of the lamps.

Features	Lamps with USB-C port	Lamps without USB-C port
On/Off + brightness	✓	✓
Grouping, locking & battery check	✗	✓

Charging the remote

When the battery is low, the top indicator light blinks every 5 seconds. Charge by placing the remote on a Humble or compatible wireless charger (not compatible with Apple brand MagSafe chargers). Charging takes about 60 minutes; a full charge lasts over one year with daily use.

Group lamps

By default all lamps are paired to group 1. To control lamps separately, pair them to groups 1–3:

1. Press and hold the lamp button for 3 seconds. The lamp fades in and out to indicate it is in pairing mode (60 seconds). If not paired within 60 seconds, it reverts to its previous state.
2. Press the desired group button on the remote. The lamp blinks to confirm pairing.
3. Select a group button on the remote to control only the lamps paired to that group.

Lock & unlock lamps

Prevents guests from adjusting lamps manually. To lock or unlock a group:

1. Select the group to lock/unlock.
2. Press the lock button to lock or the unlock button to unlock. The lamp blinks to confirm locking/unlocking.

Check battery status

At brightness level 1 or 2, lamps typically last another night when the battery is above 30%. To check which lamps have fallen below 30%:

1. Select the group to check.
2. Press the battery check button. Lamps below 30% will blink for 10 seconds.

Factory reset of lamps (without a remote)

To reset all grouping on a lamp: press and hold the lamp button for 8 seconds. The lamp blinks to confirm.

Lamp bottom button

Safety

Do not expose the remote to water, rain or high humidity.
Do not expose the remote to extreme heat or direct sunlight.
Do not drop or expose to strong impacts.
Keep out of reach of children under 3 years old.
Only charge using a Qi compatible wireless charger (not compatible with MagSafe).

Battery

This product contains a replaceable rechargeable lithium-ion battery.
Replacement batteries are available exclusively through Humble: humblelights.com or info@humblelights.com.
Always follow the battery replacement instructions included with the replacement battery before servicing the product.
Using non-approved batteries or improper installation may result in damage, overheating, fire, or injury.
Do not expose to fire or temperatures above 60°C.
At end of life, do not dispose of with household waste. Return to Humble or bring to a certified e-waste collection point for proper recycling.

Wireless

This product operates on the 432–434 MHz frequency band with a maximum radiated power of 10 mW.

Declaration of conformity

The declaration of conformity is available on request: info@humblelights.com

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment. The device has been evaluated to meet general RF exposure requirement. This equipment complies with FCC's RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna(s) must not be co-located or conjunction with any other antenna or transmitter.

The device can be used in portable exposure conditions without restriction.
