

Product Instructions

Foreword

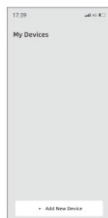

This product is a waterless aromatherapy machine that uses cold mist diffusion technology to diffuse pure essential oils without adding water, keeping the fragrance pure. It is suitable for home, office, beauty salon and other places.

Bluetooth Setting Steps:

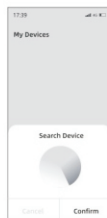

1. When the machine is connected to the power supply, the Bluetooth will turn on automatically.
2. Please turn on the mobile phone Bluetooth before setting machine.
3. Please scan the QR code or search for the "AFT Aroma" APP in the App Store/Google Play Store to download the app.
4. Enter the app and tap "Add New Device". When the device connects via Bluetooth, it will beep and the blue indicator light will turn on to show a successful connection. Then search for devices fragrance machine (Picture 1, Picture 2 and Picture 3 as below). The next step is to enter the machine and the default password is 9999 (Picture 4 and Picture 5 as below).

5. Work settings

(1). Enter the operation interface (Picture 6), view the detailed fragrance expansion time (Picture 7), click a card then it will jump to setting (Picture 8). The first part refers to the fragrance expansion time within one day; The middle part is the setting of fragrance spreading interval (seconds); At the bottom is the date to setting needs to spread incense every week.

(Picture 6)

(Picture 7)

To run during this time period, slide the switch to blue; to disable operation, slide it to gray.

4 working hours can be set

WARM REMINDER

If the running time exceeds the same day, the test needs to be divided into two periods of setting, such as 18:00-02:00 (setting needs to be the first period of 18:00-23:59 and the second period of 00:01-02:00). Setting can not be set as 00:00, otherwise the machine will not work and setting session can not set duplicate working time, otherwise it will not working.

Fan Status Instructions

When turned on: The fan status is active, and the diffuser operates in F1 mode.

When turned off: The fan status is deactivated, the device will emit a "beep" prompt, and the diffuser switches to F0 mode.

Device settings

Set the diffuser's working start and end times.

Schedule settings

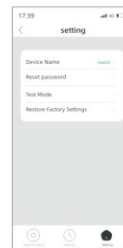

Cycle on: Set the duration of the fragrance spray
Cycle off: Set the duration of the fragrance spray interval

Week settings

Set the operating days of the diffuser.

(Picture 8)

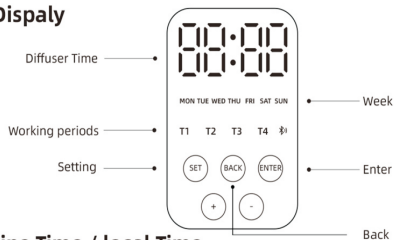

(Picture 9)

(2). (Picture 7) Setting can have multiple fragrance expansion periods (up to 4 periods). The setting method is similar to the above, and it can control the start time and end time of the each period.

Steps for diffuser set up:

Tips: When the machine is connected to the power supply, you need to check whether the machine time is the same as local time, and then set the fragrance spraying time before doing the following.

1. LCD Display

2. Machine Time / local Time

Long-press Enter to unlock Diffuser.

Press on the key "BACK" to activate the real time clock setting mode , When the HOUR flashing, press "+" or "-" key to increment or decrement. Press the key 'ENTER' to set the minute, press "+" or "-" key to increment or decrement.

Press the key 'ENTER' to set the weekday, press "+" or "-" key to increment or decrement.

Press the key 'ENTER' to save the setting and go back to normal operation.

3. Spray time for week

Press SET, the working weekday on the LCD display is flashing, press '+' or '-' key to select the working weekday and then press SET again to save for set up the time slot for machine spray.

4. Diffuser spray working time period mode

(There are 4 working period can set for spraying) Screen shows "1". Press ENTER to set the Start time and End time for 1st working time period. When the HOUR flashing, press "+" or "-" key to increment or decrement and save it.

Press the key 'ENTER' again to set the minute, press "+" or "-" key to increment or decrement and save it.

Press the key 'ENTER' again to save and for next step setting Spray duration.

5. Spray Duration

when at the 1st Spray Duration period ,press "+" or "-" key to increment or decrement (The longest spray duration is 300 seconds)

Press ENTER again and switch to the interval fragrance spraying time setting, you can press the + and - keys to adjust (The longest interval is 900 seconds)

Press Enter again for set up 2nd Spray Duration.

6. 2nd Spray Duration

The second section of the fragrance setting is similar to the first stage of the fragrance spraying period setting, if you don't need to set it, press the SET button four times to return to the main page, and the whole setting is complete.

7. Attention!

If the running time is more than 24 hours, you need to set it in two periods, for example: set 00:01-02:00, (you need to set the first period 00:01-02:00, the second period 18:00-23:59) can not be set to 00:00, otherwise the machine will not run. The set periods must not overlap, otherwise it will not run normally as well.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
