

Bee your best self :)

bee.computer

FCC ID: 2BN4DPIONEERAUDIOV1

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Any changes or modifications made to this device that are not expressly approved by Bluush, Inc. may void the user's authority to operate the equipment. This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operations. In the app, open Settings and tap Regulatory Information for more information.

Hello!

Welcome to Bee! We're so glad you're here. As a Beta tester for Bee, you're helping us to build a future where technology works for us. Bee is designed to blend seamlessly into your daily routine, adapting to and learning from you so that it can help you prioritize and take care of tasks that clutter up your focus time.

As one of our first testers, your feedback is invaluable. We're excited to see how you'll integrate Bee into your world. So, dive in, play around, and let us know how it goes!

Thank you,
Maria Zollo
CEO, Bee
