The diagram illustrates the front and back views of the HP Elite Folio 1030 G2 tablet. The front view (top) shows the screen, front camera, light sensor, and earpiece. The back view (bottom) shows the rear camera, flash lamp, microphone, volume buttons, power button, TF card slot, and speakers. Labels with leader lines identify the following components:

- Light Sensor
- Front Camera
- Flash Lamp
- Rear Camera
- TF Card slot
- Speaker
- Type-C Port (5V-3A/9V 2A)
- Speaker
- Power button
- Volume + / -
- Microphone

The diagram illustrates the Smart Stylus with three labeled features:

- Programmable Key:** A small, oval-shaped button located on the side of the stylus.
- Indicator Light:** A small, circular light located at the top of the stylus.
- Type-C Charging Port (5W):** A port located at the bottom of the stylus.

*Programmable f functions are only supported in specific software

Charging	Red light on
Fully Charged	Red light off
Low Battery	Red light Flashing(Lower than 15%)
Sleep	Sleep after 3 minutes of inactivity
Wake-up	Vibration to wake-up
Charging Time	About 1 h
Battery life	About 60hrs

- ▶ The tablet is a precision electronic device. Do not disassemble it alone.
- ▶ Avoid drops or bumps.
- ▶ Do not use the device in a high temperature, low temperature, humidity, dust or strong magnetic field environments or expose it to sunlight.
- ▶ Wipe the device gently with a wringed wet cotton cloth. Avoid exposure to other chemicals.
- ▶ The device cannot withstand drips and splashes. Do not place it next to such matters, e.g., a cup full of liquid.
- ▶ Please use an appropriate volume to avoid hearing impairment.
- ▶ Please use the original battery, charger and other accessories. Using any other type of accessories may breach the warranty regulations and lead to faults.
- ▶ Do not disconnect the device during formatting or in the process of uploading, and downloading, otherwise, application error may occur.
- ▶ Dispose of the discarded devices and accessories according to local environmental regulations.
- ▶ If you have any questions during the use of the device, please contact your local dealer or directly contact our customer service center.
- ▶ The company reserves the right to improve the product. Specifications and designs are subject to change without prior notice! Please refer to the actual product.

Name and Content of Hazardous Substances in the Product						
Part Name	Toxic and Hazardous Substances or Elements					
	Lead (Pb)	Mercury (Hg)	Cadmium (Cd)	Hexavalent chromium (Cr6+)	Polybrominated biphenyls (PBBs)	Polyaromatic amines (PAHs)
Metalhoused	X	○	○	○	○	○
Display	○	○	○	○	○	○
Plastic structural member	○	○	○	○	○	○
Hard structural member	X	○	○	○	○	○
Battery	X	○	○	○	○	○
Attachment	X	○	○	○	○	○

○ : Indicates that the content of the toxic and hazardous substances in all homogeneous materials of the part is below the limit requirements specified in the Standards for Limitation Requirements of Toxic and Hazardous Substances in Electronic Information Products.

X : Indicates that the content of the toxic and hazardous substances in at least one of the homogeneous materials of the component exceeds the limit requirements specified in the Standards for Limitation Requirements of Toxic and Hazardous Substances in Electronic Information Products.

Notes:

1. The parts marked with "X" in the above table meet the requirements of EU RoHS regulations (exempt part).
2. Circuit Board Assembly: Include the printed circuit board and its parts, electronic components, solder joints;
3. Depending on product model, the product you purchase may not contain all of the above components.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
