The device has been evaluated to meet general RF exposure requirement.
The device can be usedin portable exposure condition without restriction.

L'appareil a été évalué pour répondre aux exigencesgénérales d' exposition aux radiofréquences. L'appareil peut être utilisé en condition d' exposition portable sans restriction.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Troubleshooting

- 1. Lamp Does Not Turn On
 - a. Check if the power connection is secure.
 - b. Ensure the remote control batteries are not depleted.
- 2. APP Cannot Connect to Lamp
 - a. Ensure the lamp and phone Bluetooth are enabled and within effective range.
 - b. Restart the lamp and phone, and try reconnecting.
- 3. Flickering or Abnormal Colors
 - a. Ensure the power connection is stable.
 - b. Reset the lamp using the APP or remote control.
