

Portable loudspeaker Operation instructions

Microphone usage instructions

Press and hold the power button to turn on the battery indicator light. Adjust the volume knob to below the number "2" (to prevent ear damage caused by excessive volume). Insert the 3.5mm headphone jack into the corresponding jack of the amplifier. Press and hold "Next Song" again to switch to "Microphone Mode" for amplification

Single tune circulation

Long press the previous track to loop through the single, then long press again to revert back to the current mode.

Special reminder: In order to achieve normal volume, when wearing a microphone, please aim the microphone towards your mouth and maintain the closest distance.

Key operation

	Short press	Long connection
ON/OFF key	Smart Stop - Play	on/off
Up key	Previous song	Single cycle
Down key	Next song	Mode switching

Bluetooth connectivity

Bluetooth connection: Press the "Mode" button to enter Bluetooth mode, and the host will prompt a beep sound to connect to Bluetooth. At this time, turn on the phone's Bluetooth, search for the Bluetooth device "D16" and click on the connection button. After successful connection, the phone will display "Connection successful". After successful Bluetooth connection, open the mobile music player and play music to achieve wireless playback through mobile music. Adjust the volume of the phone and host to achieve the desired effect.

Screen display content:

Volume adjustment size U0-U9; Charging: 0-10-25-30-45-60-70-85-100, single digit flashing light, power consumption: 100-85-70-55-40-25-10-0; Display in progress: The battery level and volume are switched back and forth, and the lights turn off after 10 seconds. Apart from button operation, charging, and power consumption display reminders, the screen is in a power-saving state when all other functions are in use.

Reminder: Microphone and battery are consumables and not covered by warranty. This device comes with a charging cable that can be used to charge various types of mobile phone charging heads.

FCC COMPLIANCE STATEMENT:

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications to this unit not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.
